

GRADUATE (M.A.) STUDY PROGRAM 'INTERNATIONAL BUSINESS'

DURATION: 2 years (4 semesters)

ECTS credits: 120

TYPE OF STUDY: full-time

The completion of a graduate study program leads to the academic title: **Master of Business Economics**.

The academic year starts in October (summer semester starts in March). Applications for study programs start in September.

The graduate university study program of **International Business** is the upgrading of knowledge, skills, and competences acquired during the undergraduate studies and is a solid preparation for the most complex business and public administration tasks. Our graduate study program is characterized by an analytical and research approach to key theoretical knowledge related to the areas of international business, as well as the practical approach to the crucial challenges faced by young international business professionals.

After completing the graduate study program of International Business, students should, among other things, be able to:

- Show highly specialized knowledge in the field of business economics, which expands and deepens concerning the undergraduate level, and thus ensures the initial level of development and application of new and/or innovative ideas.
- Show advanced knowledge of business processes (managerial, logistical, financial, export-import, etc.) within international business conditions.
- Demonstrate the use of advanced statistical, quantitative, and qualitative methods and decision-making tools.
- Critically assess and argue views on key issues of globalization and its impact on the economy.
- Take personal and team responsibility for successful problem solving in the area of international business.

Entry requirement: undergraduate degree (BA/BSc) in the field of Economics or Business Economics (at least 180 ECTS credits).

Application process:

STEP 1: Submitting a foreign bachelor diploma to the [University's Recognition Office](#)

STEP 2: Delivering the following application documents to the Faculty:

- proof of citizenship (passport copy)

- Bachelor diploma

Diploma supplement (if the official transcript of records is not available)

- Recognition of the foreign bachelor diploma (from the University Recognition Office)

STEP 3:

- waiting for application results (Ranking list)

- enrollment into the master study program (in person) by delivering stipulated documents (at this point you'll need recognition document received by University Recognition Office).

→ The **application process is similar for both EU and non-EU citizens. The difference** is in **entry quota** as EU citizens applying for full-time studying in Croatia are under the same regulations as Croatian students meaning they have the same rights and obligations.

→ **Non-EU** citizens are applying under entry quota for non-EU students and are obliged to **full tuition**.

The yearly tuition fee for EU and non-EU students: 8,000 HRK

Yearly enrollment fee + insurance for EU students: 400 HRK

Yearly enrollment fee + insurance for non-EU students: 300 EUR

NOTE: All costs are to be paid in the Croatian HRK (kuna) equivalent against the middle exchange rate of the Croatian National Bank (HNB, www.hnb.hr) on the day of payment.
