**Predmet:** Erasmus+ program : Propose of our internships offers

Dear Mrs/Mr,

I allow myself to introduce us. We are Erasmus Generation, an association created for Erasmus students and supported by the European Commission.

Erasmus Generation Napoli is a non-profit Association created in 2017, in Naples, by Neapolitan and International students, who have decided to help and support all the International Erasmus Students coming to our city.

We want to propose to your students our internship offers, for their mobility abroad as an Erasmus student, and maybe creating a lasting partnership - that is why we are contacting you.

Our internships could last from two months to one year, according to the desire of the student.

We propose internships in communication, organisation of the events, prospection of future students and partnerships (administrative and some HR tasks), and all tasks that can help us in the growth of the association. We can also have several interns at once.

If you think your students might be interested by our offer, please feel free to share our contacts with them !
