UNIVERSAL AND INCLUSIVE DESIGN FOR BETTER HUMAN ENVIRONMENTS (UNIDESIGN) - programme description

UniDesign is a free multidisciplinary and interdisciplinary international educational programme on the topics of universal and inclusive design from the perspective of architecture, civil engineering, education, art, design, technologies, philosophy and cultural studies, oriented to international participants of multidisciplinary profiles.

UNIVERSAL AND INCLUSIVE DESIGN IS A DESIGN OF PRODUCTS, BUILDINGS, ENVIRONMENTS AND SERVICES DESIGNED TO MEET THE NEEDS OF ALL USERS.

UniDesign is held exclusively online with English as the language of instruction. The programme includes the participation of a variety of experts and representatives of users.

UNIDESIGN PROGRAMME ORGANISATION

During this programme the participants will have an opportunity to learn (more) about universal and inclusive design in various fields. In addition to having online lectures (see the full list of topics and collaborators in the schedule below) the participants will complete practical assignments during the mentoring sessions, based on their choice of topic.

The course is organised in two main parts:

1. THEORETICAL LESSONS
2. MENTORING SESSIONS

The theoretical lessons will be held online in an asynchronous way followed by brief knowledge tests.

The mentoring sessions will allow the participants to get the formative feedback from the mentors on a chosen assignment on practical or theoretical topic. The participants are free to choose a type and topic of their assignment in accordance with the programme outline and available mentors.

UNIDESIGN APPLICATION PROCESS

The programme is open to a maximum of 35 participants interested in the topics of universal and inclusive design. In other words, if you are an undergraduate, graduate or PhD student, a freelancer, if you work in private, public or NGO sector, you are welcome to apply by 28 February 2021 via the following link.
