EURAXESS services are designed for you

We at [EURAXESS](#), are working every day to provide researchers from all over the world with the information, tools, skills and resources that support your long-term professional career goals.

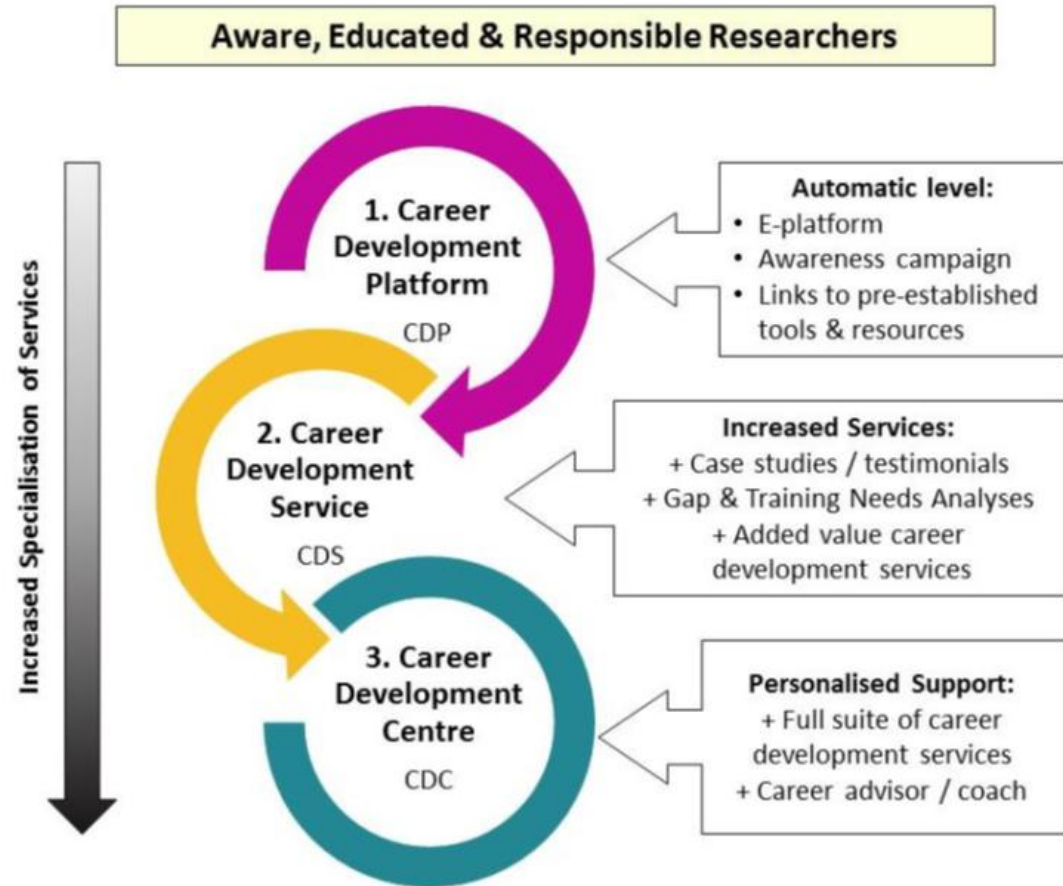

Established by the European Commission in 2004, EURAXESS is one of the largest networks supporting researchers' mobility and career development in Europe, with more than 600 support centres in 42 countries. EURAXESS Worldwide is the international arm of the EURAXESS initiative, with 8 international hubs that promote Europe as a research and innovation destination, while **building scientific collaboration between Europe and the world**. It is our dedication to develop services and tools which are purposely designed to help boosting your research career.

EURAXESS services are designed for you

Mobility (i3):
International
Inter-sectoral
Interdisciplinary

EURAXESS career development service model

Think about your career?

Knowing your skills, strengths, values and motivations is of high importance when considering your future career options and reflecting on the various career paths you may choose, both within and outside academia.

In the increasingly diverse global research environment, **assessing and improving your skills, life-long learning and actively engaging yourself** in your own personal career development is vital to be flexible and successful in your professional career path.

EURAXESS Tools

[EURAXESS](#) Portal offers a range of resources, developed by experts in professional and personal development in the course of implementation of our network projects.

All of our services and tools are free of charge and available online so you can use them whenever you wish to improve your research and transferable skills. Whatever stage you are at in your research career, our self-assessment tools will help you to test your skills and find the resources you need to advance in your career development.

EURAXESS Tools

Career Development Resources for Researchers

What does it offer?

Collection of external learning resources such as training materials; links to online career activities and webinars; articles, advice or guidance; case studies.

To whom is it meant for?

Career advisors, trainers, researchers

Outcomes
