# Measures supporting national participation in Union programmes

- **Decision on measures supporting national participation in Union programmes for research, innovation and space – May 2021**

## What is the goal of these measures?

- increasing quality and number of proposals to calls
- increasing scientific excellence of Croatian participants
- empowering human and operational capacities
- participation in incentives in areas of R&I relating to space and space technologies

## What programmes are eligible for measures?

## Who can apply?

- Scientific organizations
- Foundations
- Organizations from civil society
- SMEs

## What are the benefits of measures?

- Measure 1: Support to project proposal submissions
  - max. financial support: 15.000,00 HRK for each activity.
- Measure 2: Support to proposals that exceeded the threshold but could not be funded
  - max. financial support : from 20.000,00 HRK (partner) to 40.000,00 HRK (coordinator).

## Measure 1

Goal: preparation of a HE proposal

- organization/participation on national and international conferences, meetings and trainings
- participation in shorter trainings
- participation in meetings related to contracting process for projects
- cost of advisory services

## Eligible cost

- traveling by public transport
- accommodation and registration fee
- renting space for holding conferences, technical equipment, online platforms for conferences
- lecturing fees and other advisory and intellectual services

## Measure 2

Goal: re-applying of proposals that were positively evaluated

- positive evaluation report (for both stages in case of a two-stage calls)

## Eligible cost

- research work, lab material, cost of experimental work etc.
- procurement cost, maintenance, repair and upgrade of scientific equipment
- dissemination of research results (for example: organization of conferences and workshops, publications etc.)
- cost relating to the protection of IPR
