An Introductory Word from the Rector

/Photo: Rector of the University of Rijeka, Prof Snježana Prijić-Samaržija, PhD., by Marko Gracin/

Dear colleagues,

We have created this *International Student Guide* to assist all of you who have decided to spend some time at the University of Rijeka. It has been designed especially for students who intend to study at our University through an exchange programme, but it can also be of help to others, students or staff, coming to spend a certain period of time at the University.

We created this *Guide* to answer basic questions you might have regarding your prospective study at our University, as well as to help you cope with the formalities - accommodation, food and all the little things you should know to make your life and stay here more pleasant and easy-going.

Having chosen to come to our University, you have decided to become part of an emerging University. We think universities should be at the heart of the society. And yes, we believe that once you go back home, you will take a part of our heart to your society.

By adopting the Bologna process, European countries created the European Higher Education Area (EHEA), and the University of Rijeka has agreed to contribute to the creation of this "Europe of Knowledge". Accordingly, starting from 2005/2006 we have implemented the "Bologna principles" into all our study programmes. We are constantly improving the quality of teaching and academic life and work. Today, each member institution of the University of Rijeka has both experienced staff as well as a number of scientists educated at top centres and institutions worldwide.

Among other things, the University of Rijeka – with great support from our partners – the County and the City of Rijeka – has transformed the ex-military area on Trsat into a University Campus. The Campus hosts a number of the University's institutions - Academy of Applied Arts, Faculty of Humanities and Social Sciences, Faculty of Teacher Education, Faculty of Civil Engineering, Faculty of Mathematics, Faculty of Informatics and Digital Technologies, Faculty of Physics, University Department of Biotechnology and Science and Technology Park.

The University of Rijeka is proud to present itself as a modern European university open to foreign students, teaching staff, researchers, as well as to contemporary trends in higher education. Our University is a proud member and co-creator of the European University YUFE, and the only university in Croatia to enter into a strategic partnership with Coursera, a leading platform in online learning, allowing all members of its academic community to acquire new skills and competencies free of charge. We also participate in bilateral and multilateral higher education projects and programmes like Erasmus+, Horizon, CEEPUS, Fulbright, and others.

The University of Rijeka actively contributes to the development of Croatian society as a whole. It actively contributes to the overall integration of both the city and region in which it works, fostering a spirit of enthusiasm and unity and enabling each individual to express their talents and entrepreneurial potential.

We work to create a student-friendly University and make students our partners. This is why we have invested so much in the improvement of students' living standards. We think standards should not be regarded only in terms of accommodation and food, but also in terms of quality of the study, research work, and the University's relationship with society in general.

We are happy to have you here, dear student. Join us in making our University cosmopolitan.

The Rector of the University of Rijeka, the entire teaching and administrative staff, as well as your future colleagues – students, welcome you to our University.

Professor Snježana Prijić-Samaržija, PhD.
Rector of the University of Rijeka

1 Croatia – Facts and Figures

1.1 About the Country

Croatia is a country with a thousand-year-old history. It covers an area of 56.542 sq. km. The coastline, including the islands, is 5.835 km long. There are 1.185 islands, whereas a mere 47 are inhabited. According to the 2011 census, Croatia has a population of 4.29 million. The capital is Zagreb, a city teeming with Central European charm.

/photo: Dubrovnik by Ivo Pervan, Croatian National Tourist Board/

Croatia lies at the meeting-point of the Mediterranean, the Alps and the Pannonian plains. These various features have merged into a unique and charming harmony of opposites. Although Croatia's main attraction is the coast and its islands, the beauty of its inland might surprise you. Gorski kotar is a mountain region where nature lovers, mountaineers, hikers, winter-sports fans and

hunters can enjoy the untouched beauty of nature. Then there is Lika, the region separated from the sea by the huge mountain of Velebit. Baroque castles and thermal spas can be found in Hrvatsko zagorje, the region of Podravina, and the fertile plains of Slavonija.

In addition to its variety and natural beauty, Croatia is also renowned for its unpolluted environment. Today some 8% of Croatian territory is listed as environmentally protected in view of national parks. It is a remarkably valuable and environmentally preserved asset in the very heart of Europe. Of the eight national parks, half are in the mountains (Risnjak, Paklenica, Plitvice Lakes and Sjeverni Velebit), and half are on the coast (Kornati, Mljet, Brijuni and Krka). Of the latter four, all but Krka are on islands.

/photo: Plitvica Lakes by Luka Esenko, Croatian National Tourist Board/

Many monuments, which are a part of the world's cultural and historical heritage, are in Croatia. Most notable are the "monument" cities of Dubrovnik (representing a part of the world cultural heritage under UNESCO protection), Split, Pula, Poreč, Trogir, Hvar and Šibenik.

The Austrian and Hungarian royal families, and many other European kings and emperors, heirs, and dukes came here in winter to enjoy the mild climate and beautiful landscape. Croatia has attracted many famous people throughout history, such as the famous dancer Isadora Duncan who was enchanted by the beauties of Opatija, Lord Byron who fell in love with a beautiful blonde from the North, and Agatha Christie who spent her second honeymoon in Dubrovnik and Split.

Some world famous writers spoke about the country's beauty in their works. Writers such as George Bernard Shaw, Carlo Goldoni, Jack London, and Eugene Ionesco all wrote about Croatia. Not many people are aware of the fact that Shakespeare's *Twelfth Night* takes place here, Jules Verne's *Voyage au centre de la Terre* began in Pazin (Istria), and that James Joyce lived in Pula for a while.

Croatia has been named Lonely Planet Staffers' number one destination for 2005, while National Geographic Adventure declared Croatia the number one "Hot Adventure Destination" in 2006.

Croatia's claim to fame:

- The tie
- The ball-pen and fountain pen (Slavoljub Penkala)
- The torpedo (Ivan Luppis)
- Alternating current (Nikola Tesla)
- Fingerprint identification (Ivan Vučetić)
- Marco Polo
- The founder of San Marino (Marin from the island of Rab)
- The parachute (Faust Vrančić)

2 University Locations

2.1 Rijeka – the City

www.rijeka.hr

Rijeka, with its 130,000 inhabitants, is the third largest city and the largest Croatian port. Rijeka is situated on the Kvarner Bay, in the northernmost part of the Adriatic Sea, where the Mediterranean penetrates deepest into the European mainland coming closest to the countries of Central Europe. The town is not far from the Italian and Slovenian borders and is surrounded by mountains and numerous picturesque coastal towns.

/photo: Rijeka by Damir Kvajo, Croatian National Tourist Board/

Rijeka has a pleasant Mediterranean climate with exceptionally warm summers and relatively mild winters. Temperatures range between 6°C (in January) and 37°C (in July). The average temperature in July is 23°C and the average for the coldest month, January, is 5.2°C. The most common winter lows do not venture under 3°C below zero. Highest summer air temperatures affect the sea temperature, which can reach 25°C,

giving an annual average of 16°C.

The mountains surrounding the Kvarner, from Učka, over the hills of Gorski kotar, to Velebit, create an impressive natural setting which is especially beautiful when approaching Rijeka from sea. Occasionally, during the year and especially in winter, cold bouts of the bura wind blow from the mountains, causing sudden drops in temperature and clearing the air above Rijeka.

In addition to the bura, which brings cold and clear weather, the jugo wind brings cloudy and rainy weather. In summer, a frequent wind is the north-westerly maestral, which brings a breath of cool air to hot summer days, extremely suitable for sailing.

The Rječina, a karst river, plays an important role in the life of Rijeka, supplying the town and its surroundings with drinking water.

/photo: Risnjak by Ivo Biocina, Croatian National Tourist Board/

The immediate vicinity of the Gorski kotar highlands and coastal tourist centres offer Rijeka's inhabitants and visitors a unique opportunity to take part in various sporting and recreational activities.

The first known inhabitants of the area were the Illyrians and the Celts. A municipality known as Tarsatica was located here during the period of the Roman Empire. In the 7th century, the Croats settled in Tarsatica and the surrounding area. In later periods, until the end of World War II, Rijeka was ruled in turn by the Hapsburgs, the Hungarian royal family, Croatian nobility, and Italy. Rijeka became part of Croatia in 1945.

Along with its role as an economic and transport focal point, Rijeka retains its importance as a cultural and educational centre. Numerous cultural events take place in Rijeka, such as theatre performances, concerts, exhibitions, the traditional international Rijeka carnival, fairs, and sporting events. Rijeka is also known for its cultural monuments, which reflect the styles and events of past centuries: the remnants of ancient Tarsatica, the Roman Arch called the Gate, which is the oldest historical monument in Rijeka, the City Tower, the Church of St. Sebastian, the Church of the Assumption, the Palace of the Old Town Hall and St. Vitus' Church. It is also known for the Maritime and Historic Museum of the Croatian Coast (formerly the Governor's Palace), the Croatian National Theatre, the University Library with the Modern Art Gallery, Trsat Castle, and a number of buildings that originate mainly from the 19th century.

Curiosities

- The first torpedo in the world was made in Rijeka
- Fiorello la Guardia, New York's most famous mayor, worked in the American consulate in Rijeka
- Rijeka is the town with the highest number of baroque marble altars on the eastern part of the Adriatic coast
- The first steam engine in south-eastern Europe was produced in Rijeka
- The first museum in Croatia was founded in Trsat in 1843
- The first photo of a gunshot was taken here
- The only preserved lifebelt in the world, from the Titanic, can be found here

2.2 Opatija

www.opatija.hr

/photo: Opatija by Damir Kvajo, Croatian National Tourist Board/

The name of Opatija is derived from the Benedictine Abbey (opatija in Croatian) built on the seashore between 1400 and 1440. The oldest known records of Opatija originate from the mid-15th century and include documents written by fra Giacomo (1449) and a Bull of Pope Nicholas V (1453). The area around the abbey was settled by fishermen and farmers, and by the mid-19th century the population of Opatija was about 250.

A historic watershed in the development of the town occurred in 1844 when a prominent Rijeka citizen, Iginio Scarpa, built a summer residence alongside the 16th century Church of St. James; he called it Villa Angiolina, after his wife. Thanks to the hospitality of the Scarpas, Villa Angiolina became the centre of

the social life of Istria, and Opatija became a place to visit. Thus, 1844 is considered the start of tourism in Opatija. The visits of Ban Josip Jelačić in 1854 and Empress Maria Ana, the consort of Emperor Ferdinand I in 1860, contributed to Opatija's growing fame outside Istria.

/photo: Opatija by Damir Kvajo, Croatian National Tourist Board/

Word of the lovely little town on the Adriatic coast spread throughout Europe, and on March 4th 1889, Opatija received the official designation of health resort, which greatly encouraged its development. Popularly called the Pearl of the Austrian Riviera, Opatija became an important tourist destination for Austrian and European celebrities. In 1920, the Treaty of Rapallo awarded Opatija to the Kingdom of Italy,

which slowed down its development. After World War II, tourism was revived and Opatija is today one of the best-known and most prestigious centres of tourism in Croatia and a favoured location for conferences and meetings.

With the opening of the Thalassotherapia, Ambassador, Adriatic and Admiral Hotels, as well as the Ičići Marina, Opatija became particularly important as a health resort and tourist destination.

2.3 Croatia info card – What to expect?

Language. The official language is Croatian, written in Latin alphabet. In the coastal part of the country Italian can be useful, since local population uses a dialect related to it. If these are not your strong suits, don't worry – most of the younger population and officials speak English, so you should have no problem getting around if you are proficient in English.

Religion. According to the latest census (2011), 86% of Croatian population consists of Catholics, while other religions are represented to a lesser extent: 4% Orthodox, 1.5% Muslims and 0.3% Protestant. Agnostics and atheists share less than 5%. In Croatia, major holidays are based on catholic liturgical year, although members of other denominations are free to celebrate their holidays and practice their religion customs.

Politics and economy. Croatia is a democratic republic with the President as the highest political function and elected Parliament. The country is divided into 21 self-governing counties. The capital is Zagreb, which is also the largest city, followed by Split and Rijeka according to their size. The official currency is Euro. The most developed economical sector is tertiary, especially tourism and hospitality.

Population. Croatian population is around 4 million people. Ethnically, the population mostly consists of Croats (>90%), while most National Minorities include citizens from neighboring countries.

Climate. Croatia has belts of different climate conditions: Mediterranean, continental and mountainous, but the climate can generally be described through dry and hot summers, as well as humid and mild winters. With an average of 2.600 sunny hours per year, the Adriatic coast is one of the sunniest in the Mediterranean, with average summer sea temperature from 25°C to 27°C. One more note: rain is not a strange sight in Rijeka.

Customs. Croatia is one of the Mediterranean countries which has a smaller interpersonal distance, so it's possible that people might stand close to you when talking, waiting in line or in populated places.

Also, it is common to see warm relationships and close communication styles, even with strangers. Croats are very proud of their long cultural and historical tradition, as well as sport successes. Let's not forget about food and drinks, which are also an important part of the culture. Croatia is generally considered to be a safe country with no major threats, beside the average risk of pickpocketing in the summer tourist season crowds.

3 Useful Information

3.1 General

3.1.1 Post and Telecom Services

The phone code for Croatia is ++ 385, succeeded by the two-digit code of the town.

Post offices are open from 7 a.m. until 8 p.m. and on Saturdays until 1 p.m.

Stamps are sold in post offices and at newsstands.

If you do not have a roaming option on your mobile phone, we strongly suggest you arrange it before departure with your local mobile phone carrier. When you arrive in Croatia, one of the three networks will automatically appear on your display (A1, T-Mobile or Telemach). For information on the prices, please consult your carrier before departure.

You may also purchase one of the prepaid start packages. For additional information visit:

- T- Mobile <https://www.hrvatskitelekom.hr/>
- A1 <http://www.a1.hr/privatni>
- Telemach <http://www.telemach.hr>
- BON BON <http://www.bonbon.hr>

When you are making local calls from a mobile phone to a landline, you have to dial 051 (city code for Rijeka) and then enter the phone number.

3.1.2 Chemists/Pharmacies

Chemists/Pharmacies stay open during usual shopping hours, from 8 a.m. until 8 p.m. The pharmacy "Centar" is open 24 hours a day; it is located in the city centre at Riva 18, which is near the beginning of the Korzo Street.

3.1.3 Banks

Banks are open on weekdays from 8 a.m. to 7 p.m., and on Saturdays till 12 a.m.

3.1.4 Shops

Common working hours are weekdays from 8 a.m. to 8 p.m. and on Saturdays until noon, occasionally on Sundays until noon as well. Local food shops are open Monday to Saturday from 6 a.m. to 7:30 p.m., a few are open on Sundays, too. There are many supermarkets, which are somewhat cheaper than local shops. They are open from 7 a.m. till 9 p.m. Some larger shopping malls and grocery stores are open on Sundays as well. ZTC /<http://www.ztc-shopping.hr/> and Tower Centre Rijeka / <http://www.tower-center-rijeka.hr/> are large shopping malls with many stores, food courts and entertainment facilities.

3.1.5 Currency – Exchange Rates

The currency in the Republic of Croatia is EUR (€).

Foreign currencies can be exchanged at banks, exchange offices, post offices and at most tourist agencies, hotels, camps and marinas.

All major credit cards – Visa, Diners Club and Mastercard are accepted almost everywhere. Cash dispensing machines/ATMs are easily found in the area.

3.1.6 National Holidays

- January 1st – New Year's Day
- January 6th – The Epiphany
- Easter and Easter Monday – (variable, e.g. 2022 = April 17th and April 18th)
- May 1st – Labour Day
- May 30th – Statehood Day
- Corpus Christi – (variable, e.g. 2022 = June 16th)
- June 22nd – Anti-Fascism Day
- August 5th – Victory and Homeland Gratitude Day
- August 15th – The Assumption
- October 8th – Independence Day
- November 1st – All Saints' Day
- November 18th – Remembrance Day
- December 25th, 26th – Christmas Holiday

3.1.7 Useful Phone Numbers

Police Department	192
Fire Department	193

Tel: 659 111*

*Health-Care Centre OPATIJA
Stubišće Dr. Vande Ekl 1
Tel: 271-227*

3.1.9 Useful information

- Time zone CET (GMT+1)
- Electric current: 220 V, 50 Hz
- Tap water is drinkable

- No vaccination required
- Internet cafés can be found in all major towns
- Available public transportation (buses, taxis)

3.2 Entertainment

<http://www.visitrijeka.eu/>
www.mojekarte.hr/en.html

Rijeka is famous for its carnival, which is the third largest carnival in the world. If you are lucky enough to find yourselves in Rijeka during the carnival season (January - February), you may enjoy traditional folk festivities, carnival exhibitions, concerts or masquerade balls, as well as an international event where the International Carnival procession gathers over ten thousand participants and 150,000 visitors from Croatia and abroad.

Rijeka has several cinemas, and if you are a movie fan, you can find the programme in the daily newspapers and at several points in the city centre. During the summer many concerts and other performances are held in the surrounding tourist centres.

3.2.4 Restaurants

There are various restaurants, fast-foods, cafés, confectioners', bistros, snack bars, taverns and other places where you can enjoy your meal.

A list with detailed information on places to eat can be found at <http://www.kvarner.hr/en/tourism> and <https://visitrijeka.hr/en/okusi/where-to-eat-and-drink/>

3.2.5 Bars

The most popular bars are mostly located in the town centres of Rijeka and Opatija. For more information about bars, please consult the links in chapter 3.2.4.

3.2.6 Libraries

The City Library Rijeka
M. Gupca 23
Tel: 211-139
gkri@gkri.hr; www.gkri.hr

The University Library Rijeka
Dolac 1
Tel: 336 911
Fax: 332 006
ravnatelj@svkri.hr; posudba@svkri.hr

3.3 Sports and Recreational Centres

<http://www.appleby.net/yellowpages/rijekaN-Z.html#Sport>
<https://visitrijeka.hr/vidi-i-dozivi/aktivnosti-i-ideje-za-boravak/bike-rijeka/>

Sports fans can check out the football stadium and swimming pools complex in the western part of the city called Kantrida, as well as the "Mladost" sports hall located on Trsat (where basketball, handball, and volleyball are played).

The new Zamet Sports Centre is located in Rijeka's neighbourhood Zamet. It has various facilities: a sports hall, a local committee office, shops, a public square and a garage.

The famous Alpe Adria Racing race, which is renowned worldwide, takes place annually near Rijeka, at Grobničko polje (The Grobnik Field).

3.4 Local Transport

Local transport in Rijeka is organised by the city bus company Autotrolej. The company also provides services to many tourist places in Kvarner (to Opatija and Lovran to the north, and to Crikvenica and Selce to the south), so these towns can be easily reached. However, the city bus company does not provide services to the island of Krk, so you need to take the regular intercity bus-line, which is more expensive, and these buses can be very crowded on weekends and during summers.

There are several types of bus tickets:

- Monthly bus pass: price approx. € 17,86 for students and € 44 for non-students (city line prices)
- Round-trip ticket: price approx. € 2,5 (city line prices). These tickets may be obtained at newsstands.
- One way ticket (only available on the bus): price approx. € 1,6 (city line prices).

How to obtain a monthly bus pass?

- You should bring a photo (3 X 3,5 cm), a certificate of attendance from your faculty's administrative office and a completed and verified bus pass application which you can get at the web site <https://www.autotrolej.hr/att/wp-content/uploads/2016/05/RCC-zahtjev-za-izdavanje-kartice-AZOP-26-4-2016-web.pdf> or at the Autotrolej office on the Jelačić Square.
- If you have come to Rijeka as a visitor only, you too are entitled to a bus pass. It is a bit more expensive than the students' pass, however the procedure is easier. Just go to the above-mentioned office and bring a document, a photo, the money and you can purchase your pass.

To find information on city and suburban bus services, check out the following website: www.autotrolej.hr, click Vozni redovi, and then click Gradski prijevoz (inner-city lines) or Prigradski prijevoz (city outskirts).

TAXI stands:

<i>Rijeka</i>	<i>Train station</i>	<i>332-893</i>
	<i>Jelacic square</i>	<i>335-417</i>
	<i>Trg Źabica 1</i>	<i>335-138</i>

4 Travelling to the University of Rijeka and Settling In

4.1 Visa Application Requirements

A foreign citizen is required to get a visa before entering the Republic of Croatia, in accordance with the visa system prescribed by the Croatian government.

You will not need a visa for travelling within the EU if you are a citizen of an EU country, Iceland, Liechtenstein, Norway or Switzerland.

Visas are normally issued by the diplomatic mission or the consular office of the Republic of Croatia. A visa cannot be used as a work permit.

4.1.1 Procedure

Foreign citizens who are subject to visa requirement are obligated to apply for a visa prior to their entry into the Republic of Croatia, at the authorized Croatian diplomatic mission/consular post.

If there is no Croatian diplomatic mission or consular post in the applicant's country, an application for a visa may be submitted to the nearest Croatian diplomatic mission/consular post.

As a general rule, a foreign citizen shall submit a visa application personally. Foreign citizens need not submit the application personally, but they are required to present themselves when called upon by the diplomatic mission/consular post.

A visa application for a foreign citizen who is a minor or a foreign citizen deprived of his/her business capacity shall be submitted by his/her legal representative.

Visa application shall be submitted no sooner than three months prior to the date of the intended trip.

Foreign citizens shall enclose the following documents with the application:

- valid travel document (the period of validity of the travel document should exceed that of the visa's by three months, must be issued in the last 10 years, must have at least 2 empty pages left),
- colour photo 35x45 mm,
- evidence of paid visa fee,
- supporting documents that prove,
- the purpose of the journey to the Republic of Croatia,
- ensured accommodation,
- means of subsistence to cover their stay in the Republic of Croatia and the return to their country of origin or to a third country have been provided,
- means of transport and their intention to return to their country of origin or to a third country,
- travel health insurance.

4.1.2 Visa information

All information related to visa requirements, fees, the list of countries whose citizens require visa for Croatia as well as the Visa application form can be found at the web page of the Ministry of Foreign and European Affairs: <https://mvep.gov.hr/embassies-and-consulates/embassies-of-the-republic-of-croatia-in-the-world/244601> .

Note: Information on this web site is liable to change, therefore additional information should be sought out at the nearest Croatian diplomatic mission/consular office before travelling.

4.2 Requirements for Temporary Stay

4.2.1 Address Registration

Hotels and Student Dormitories register their foreign guests with the Primorsko-Goranska County Police Administration. Foreign citizens (except EU, Iceland, Liechtenstein, Norway and Switzerland citizens) staying at an apartment should register their address or change of address in person at the nearest Police Station of the Primorsko-Goranska County Police Administration within forty-eight hours upon arrival (weekends excluded).

The Ministry of Interior

Primorsko-Goranska County Police Administration

<https://mup.gov.hr/en>

RIJEKA

Department for foreign citizens

Rijeka Police Station

Trg žrtava fašizma 3

HR-51000 Rijeka

Tel: (0)51 430 333

OPATIJA

Department for foreign citizens

Opatija Police Station

Ul. Maršala Tita 151

HR-51410 Opatija

Tel: (0)51 710 111; (0)51/710-188

There is a simple form to fill (Form 8A: Registration and cancellation of residence or registration of change of address), and the foreign citizen gets a receipt. If he/she changes the address or leaves the country during the period of 90 days and comes back again, he/she has to repeat the procedure.

Documents needed for the address registration:

- passport (original and a copy),
- form issued at the Primorsko-Goranska County Police Administration,
- a valid Croatian Identity Card of the landlord/landlady who legally owns the apartment (if a foreign citizen has already rented an apartment),
- four copies of the Tenancy contract and four copies of the Proprietor's certificate for the rented apartment (notarized by a notary public).

4.2.2 Short-term stay – stay of up to 90 days, with or without visa

Foreign citizens who are not obligated to possess a visa to enter the Republic of Croatia may stay in the Republic of Croatia for a maximum of 90 days within a period of 6 months, starting from the day of their first entry.

4.2.3 Temporary Stay Permit on EU/EEA citizens

The students (holders of a scholarship within the following programmes: Erasmus+, Erasmus Mundus, CEEPUS, bilateral exchange) apply for the FIRST TEMPORARY STAY PERMIT in person at a local police administration or a police station in Croatia (check the Article 4.2.1 for the addresses).

EU citizens and citizens of Iceland, Liechtenstein, Norway and Switzerland need to apply for a residence permit in person at the Primorsko-Goranska County Police Administration no later than 8 days after the end of the 3 month stay in the Republic of Croatia.

The following documents should be enclosed with the application for the first temporary stay permit:

- the application for the issuance of his/her first temporary stay permit (Form 1a *1),
- 2 colour photographs, 35 x 45 mm,
- valid travel document (original and copy),
- official confirmation of residence (lease contract or statement of apartment/house owner authorized and verified residence by a notary public and proof of ownership of apartment or sales contract or contract of gift),
- official confirmation of insurance (original and copy of the health insurance policy),

- official confirmation of subsistence means (certificate of employment with amount of income or other proof of secured means for subsistence in the Republic of Croatia. Proof of secured means of support attached to the request must be in the name of the foreigner, immediate family member or joint household family member in the amount of 500.00 EUR – original and copy not older than 6 months),
- proof of the reasons for temporary stay (Erasmus students shall receive a written confirmation by the University of Rijeka – Acceptance letter, proving their status of Erasmus exchange students),
- a copy of OIB - personal identification number (original and copy) – you will make the OIB upon arrival

4.2.4 Temporary Stay Permit of non EU citizens

Third-country nationals may stay in the Republic of Croatia for a short stay of up to 90 days in any period of 180 days, provided that the 90-day stay can be used once or several times.

The request for temporary stay is submitted to the diplomatic mission, ie the consular office of the Republic of Croatia, before entering the Republic of Croatia (for those nationals with visa required).

Conditions for granting temporary residence permit:

- prove the purpose of the temporary stay,
- has a valid travel document, the period of validity of a foreign travel document must be three months longer than the period of validity of the temporary stay
- has means of subsistence,
- has health insurance,
- when regulating the first temporary residence - proof that one has not been convicted of criminal offenses from the home country or the country in which one stayed for more than a year immediately before arriving in the Republic of Croatia (this proof does not have to be provided by a third-country national if one is a student or researcher transferee from another EEA Member State)
- there is no ban on entry and stay in the Republic of Croatia or a warning issued in the Schengen Information System for the purpose of ban on entry,
- does not pose a threat to public order, national security or public health.

The documents that are being enclosed with the application must be original documents or certified copies. Documents written in a foreign language must be filed together with the certified Croatian translation and certified in line with specific provisions. The documents should be dated no more than 6 months prior to their delivery.

If the application has been positively decided, the foreign citizen concerned shall be issued a temporary stay permit in a form of a sticker in his/her travel document. The applicant should consult the Police Station where he/she applied for the temporary stay permit when the approval will be issued.

The approval for the first temporary stay, that is, the renewal of the temporary stay permit shall be valid for the period of up to 1 year. The application for the temporary stay permit renewal shall be submitted to a police administration or a police station no later than 30 days before the existing temporary stay permit expires. In case the foreign citizen concerned fails to apply for the temporary stay permit extension, he/she shall be charged a fine.

Tel.: +385 51 355 200
Working hours: 09.00-12.00

4.4 Health Insurance

All foreign students must have health insurance during their stay in Croatia. The best option is to enrol in an insurance plan in the home country that covers one's stay in Croatia. They may use international health insurance from their home country or choose to be insured at the health insurance company of their choice.

EU citizens and citizens of Iceland, Liechtenstein, Norway and Switzerland may apply for the European Health Insurance Card (or EHIC) at the health service institute in their own country, before departure for Croatia.

The European Health Insurance Card is issued free of charge and allows anyone who is insured by or covered by a statutory social security scheme of the EU to receive medical treatment in another member state for free or at a reduced cost, if that treatment becomes necessary during their visit. It will cover you for treatment that is needed to allow you to continue your stay until your planned return. The EHIC is not an alternative to travel insurance. It will not cover any private medical healthcare. Therefore, it is advisable to have both an EHIC and a valid private travel insurance policy.

4.5 How to Arrive to Rijeka

4.5.1 By Train www.hzpp.hr/en

You can reach Rijeka from Zagreb, the capital of Croatia, in less than 3 hours. The quickest means of rail transport is the Inter City train from Zagreb to Rijeka twice a day. There are also direct trains daily to Rijeka from Ljubljana, Budapest, Munich and Vienna. It is very complicated to reach Rijeka by rail from the southern parts of Croatia.

Train station – Rijeka
Trg kralja Tomislava 1
51 000 Rijeka
Tel: +385 60 333 444
Tel: +385 51 211 304

4.5.2 By Air

The Rijeka Airport is situated on the island of Krk, which is connected to the mainland by the Krk Bridge. The airport is about 27 km from Rijeka's city centre. It takes approximately 45 minutes to reach the city of

Rijeka by bus, which is provided by the Croatian national airline company, Croatia Airlines. Please check the website www.rijeka-airport.hr for information on available flights.

However, there are several airports that can be reached relatively easily from Rijeka. Zagreb Airport (175 km from Rijeka) offers flights to all major cities in Europe (Paris, London, Amsterdam, Zurich, Frankfurt, Brussels, Düsseldorf, Berlin, Prague, Vienna, Munich, Sarajevo, Skopje, and Mostar), as well as to many other cities (via Frankfurt). It is also possible to take a direct bus from/to Zagreb Airport to/from Rijeka every afternoon. It takes 2 hours to reach Rijeka by bus and the buses are generally comfortable.

Other airports close to Rijeka are: Brnik (Ljubljana, Slovenia) (138 km from Rijeka), Ronchi dei Legionari (Trieste, Italy) (112 km from Rijeka), Pula (97 km from Rijeka) and Marco Polo (Venice, Italy) (223 km from Rijeka).

Pula Airport (PUY)
Valtursko polje 210
52100 Pula
Tel: +385(0)52 550 926
www.airport-pula.hr

4.5.3 By Coach

ARRIVA offers regular international bus services between towns and tourist centres of the Republic of Croatia and major cities in Italy, Switzerland, Germany, Belgium, the Netherlands, Austria, France, Great Britain, all neighbouring countries, and seasonally with the Czech Republic, Slovakia and Hungary.

Central Coach Station Rijeka
Žabica 1
Info Tel: +385 (0) 51 660 660
Fax: +385 (0)51 211 988
www.arriva.com.hr
info@arriva.com.hr

4.5.4 How to get to Opatija

Once you are in Rijeka, it is fairly easy to reach Opatija. There is a local bus service (bus line 32) operating to Opatija from Rijeka's Jelačić Square approximately every 20 minutes.

4.6 Accommodation and Living

4.6.1 University Student Dormitories - Housing Services for Students

Student Dormitories "Ivan Goran Kovačić"
Franje Čandeka 4
HR-51000 Rijeka

HR-51000 Rijeka
Tel: 051 584 544
Email: dom@scri.hr

/Photo: Dormitory Trsat by Domagoj Blažević/

Student centre Rijeka encompasses two student dormitories: student dormitory Ivan Goran Kovačić and a new student dormitory Trsat on Kampus, which opened in July 2016. Life in accommodation facilities of Student centre Rijeka is organized according to the needs and demands of students. It includes adequate standards of living and eating. Students can satisfy their cultural and sports needs and live in a safe environment.

Student dormitory Ivan Goran Kovačić offers accommodation for full-time students, students in framework of international exchange and mobility, student on internship and full-time students who are victims of tragic accident of larger scale. The dormitory consists of five buildings. Total capacity of student dormitory Ivan Goran Kovačić is 642 beds for students, 16 beds for visiting professors. In student dormitory there are laundry room with equipment for glazing, classroom, computer room, a restaurant Mini, kitchenette and bathroom on each floor, small gym, two sports fields and terrace. All rooms have free Internet access.

/Photo: Dormitory Trsat by Domagoj Blažević/

Student dormitory „Trsat“ offers 32 single rooms and 10 apartments for Erasmus students. New student dormitory has: laundry room with equipment for glazing, classroom, big computer room, gym, fitness room, a restaurant, pizzeria, coffee bar and so on. All rooms have free Internet access. Rooms are equipped with all necessary equipment and will provide to user of accommodation a quality student life. These rooms are available in period from 1st of September to 15th of July.

Number of beds that are reserved for Erasmus students is limited. The rooms are given to students on a „first come, first serve“ basis.

During summer (from 1st of July to 27th of September) Erasmus students can be accommodated in double room in pavilion 1 in Student dormitory „Ivan Goran Kovačić“.

4.6.2 Hotels and Hostel

Hotel accommodation in the region is quite expensive (€50/day and more).

Grand Hotel Bonavia
Dolac 4

<https://www.prenociste-kantrida.com/>
prenociste@stm.hr

HI Hostel Rijeka, a beautiful 19th century villa, is located in a beautiful residential area (called Pećine) just overlooking the Adriatic Sea. It is only a 15-minute walk from the city centre, but the local bus stops just in front of the Hostel. The capacity is limited (61 beds) and advanced booking is highly recommended. Erasmus students are entitled to a 20% discount of Hostel prices.

Facilities include reception (0-24h), restaurant, TV room, seminar room, Internet access, and a tourist info point, vending machines with cold and warm drinks.

Hostel Dharma promotes holistic tourism and focuses on the holistic system integrating body, mind and spirit to create balanced, self-renewing and sustainable tourism and the relationship between man, building and the environment, combined with the natural cycles of the area.

Dharma hostel services include sleeping arrangements, various forms of active vacations (yoga, anti-stress techniques, meditation, outings, etc.) and healthy vegetarian cuisine.

There are several other, recently opened, youth hostels that offer accommodation to students and young travellers. Some of these are:

Hostel Korzo
Korzo 18
<https://www.hostel-korzo.com/>

Hostel Kosy
Užarska 1
<https://visitrijeke.hr/en/odmori-planiraj-i-istrazi/smjestaj/lista-objekata/11093/>

Fun Hostel
Šetalište XIII. divizije 28
<https://visitrijeke.hr/en/odmori-planiraj-i-istrazi/smjestaj/lista-objekata/11181/>

The full list of hostels in Rijeka can be found here:
<https://visitrijeke.hr/en/odmori-planiraj-i-istrazi/smjestaj/lista-objekata/?type=9>

4.6.3 Private Housing

Private housing (individual rental of apartments) is quite popular in the region. Student Center Rijeka can assist you in finding appropriate private accommodation. Please consult the websites: <https://www.facebook.com/Privatnismjestaj.SCRI/> or contact scri.uniri@scri.hr.

Also, members of the Erasmus Student Network (www.facebook.com/ErasmusRijeka/) and your Erasmus buddies will assist you in finding the appropriate apartment.

Expected prices for accommodation are as follow:

- room (at a landlord's) - €200 – €300 per month
- flatlet - €350 – €450 per month

Prices vary according to the size of the apartment, provision of central heating facilities, the location, overall comfort, etc. Overhead expenses are sometimes included in the price, and are sometimes paid by the consumer. Payment is expected at the beginning of the month, while some landlords request payment for several months in advance.

The easiest way to rent a room or a flat is to run an advert in a newspaper or in the classified ads e.g. Butiga, Burza (free of charge) and Novi List (paid).

The best time for apartment hunting is August and the beginning of September, as well as in between semesters (February). The end of September and October are the worst periods for apartment searching because many students are searching at that time, thus prices are higher and it is more difficult to find good value for money.

4.6.4 Living expenses

Taking into consideration all the information given, monthly living expenses should be approximately €500 (€200 for accommodation plus overheads, €300 for food, €20 for public transport). However, much depends on one's own lifestyle and chosen accommodation. The following prices are merely a ballpark estimate intended for orientation:

Bread	€1.5
Beer	€3.0
Coffee	€2.0
Coke	€3.0
Hamburger	€6.0
Pizza	€7.0

4.6.5 Student identity card (X-card)

Erasmus students that study at the University of Rijeka are entitled to hold a student identity card (X-card) during their stay in Rijeka. It enables them to eat in students' cafeterias and restaurants at a reduced price. It proves a student's status and may also be used to get a discount for some tickets and services.

Faculties provide students with identity cards (X-cards). Upon arrival to Rijeka, Erasmus students should contact their faculties in this regard. In order to obtain the X-card students have to apply for the personal identification number (OIB in Croatian) at the Tax Department (Riva 2, Rijeka). They need to fill in the form which they will receive there and bring the original and a copy of their passport. The Tax Department will issue the OIB number the same day.

Subsidized meals in student restaurants in Rijeka – where to use X card:

Restaurant "Kampus"	Radmile Matejčić 5
Restaurant "Indeks"	Krešimirova ul. 18
Restaurant "Mini"	Čandekova ul. 4

For all student restaurants and coffee shops, follow the link provided below:

/Photo: UNIRI Rectorate by Karlo Čargonja & Ivan Vranjić, Milkser d.o.o./

The modern university was founded on May 17th 1973, but the first school of higher education was established in 1627 by the Jesuits, and enjoyed equal status as did the academies in the largest cities of the Austrian Empire. The Faculty of Philosophy, established in 1726, operated for two years. The Theological Faculty was founded in 1728. From 1773 to 1780, Rijeka was the seat of the Royal Academy.

The University of Rijeka has matured into a modern European university and a centre of excellence whose impact extends beyond the region. The University of Rijeka is a research, science, and education-oriented university that supports social and economic development in our community, the City of Rijeka, and the wider region.

The University of Rijeka is presently comprised of thirteen faculties, one academy, two University departments, as well as a University Library and Student Centre, which are situated in Rijeka and Opatija.

Average number of students at the University of Rijeka is 14,600, of these 10,700 full-time and 3,900 part-time students.

The University of Rijeka is a member of:

- The Young Universities for the Future of Europe (YUFE) alliance
- The Young European Research Universities Network (YERUN)
- Inter-University Centre of Post Graduate Studies in Dubrovnik,
- EUA - European University Association,
- Network of the Universities of the Adriatic and Ionian Basin,
- Alps Adria Rectors' Conference,
- CEI - Central European Initiative University Network.

And a participant in:

- ERASMUS+ programme,
- Horizon 2020, other EU programmes,
- CEEPUS (The Central European Exchange Programme for University Studies),
- Fulbright Programme.

In 2020, for the first time ever, the University of Rijeka has been included in one of the most recognized rankings of world universities – QS World University Rankings, thus entering among 4.5 – 5.5 percent of the best universities in the world. After being included in another prestigious ranking system, Clarivate Analytics' Round University Ranking (RUR), the University of Rijeka is now recognized by the prestigious QS World University Rankings as one of the best, placing it on its top 1000 list, led by well-renowned universities from the world of higher education.

After joining the YUFE initiative in December 2018 and contributing to the YUFE project as an associate partner since June 2019, the University of Rijeka ongoing efforts and active engagement have resulted in a change of status to a full member of the YUFE consortium. The full membership status was awarded by the European Commission upon formal request submitted by the YUFE alliance. The University of Rijeka

is thus equated with other member universities from Belgium, Cyprus, England, Finland, Germany, Italy, the Netherlands, Poland, and Spain, and will, therefore, assume even more responsibilities in co-creating the first European University of the future open to local and international students of all backgrounds. After being included in the QS World University Ranking at the beginning of the year and becoming a full YUFE member, UNIRI was accepted to the international organization Agence Universitaire de la Francophonie (AUF), a global network of French-speaking universities and research institutions at the end of May.

This progress is a result of our continuous effort in research, education and science activities, which will also enable us to attend to the quality and international relevance of our teaching, scientific, artistic and professional work in the years to come.

5.1 The University of Rijeka Member Institutions

Academy:

- Academy of Applied Arts

5.2 International Mobility / Erasmus Centre

/Photo: UNIRI International Mobility Centre by Luka Mjeda/

The University of Rijeka's collaboration with foreign universities, scientific and research institutions, international agencies and associations is a significant area of development. Moreover, it is considered as one of its fundamental objectives.

The University's openness towards both society and the world is a prerequisite for its further development. Openness and contacts with foreign institutions are considered as a tool for benchmarking progress and accepting the world top criteria in research and education.

The main focus is on participation in bilateral and multilateral research programmes, student mobility programmes, young researchers and university teachers exchange programmes as well as securing scholarships and grants for professional training.

The University strives to facilitate all existing forms of international cooperation as well as to create conditions for establishing new models of international collaboration. The University of Rijeka strongly encourages and facilitates student mobility through the Erasmus programme.

/Photo: UNIRI International Mobility Centre by Luka Mjeda/

The International Mobility Centre is in charge for the Erasmus program at the University of Rijeka, for the Key Action 1, individual mobility of students and staff. UNIRI joined Erasmus program in 2009 and since then has signed over 690 Erasmus bilateral agreements with universities from the majority of EU countries. This cooperation includes students and staff exchange. Since 2009, more than 1900 University of Rijeka students and 600 staff members participated in Erasmus. Since 2011, University of

Rijeka hosted more than 2200 incoming students and 850 incoming staff members. Mobility numbers increase quickly. Nowadays, the University of Rijeka International Mobility Centre administrates more than 800 incoming/outgoing students and 300 incoming/outgoing staff members per academic year.

Student mobility and accompanying academic recognition are deemed as necessary prerequisites for an open and dynamic European education area that will help facilitate European integration as well as employment market mobility.

5.3 Why study in Rijeka

Rijeka is the most densely populated city in Croatia, known for its bohemian atmosphere and abundance of festivals.

2020
 European Capital
 of Culture

Rijeka carries the title of 2020 European Capital of Culture. Under the slogan "Port of Diversity", the Rijeka 2020 program focuses on three core themes: water, work and migration.

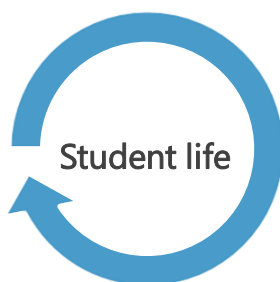

Because of its unique location, Rijeka is a crossroads of land and sea routes connected with the rest of the world by air, bus, train and ship lines. It's the 3rd biggest city in Croatia: big enough to amuse you, and diverse enough to offer nature escapes to various beaches or close by greenery.

More than 16.000 students, 172 study programs, 2nd oldest University in the country, 3rd largest University in the country, among the top 1000 Universities in the world (QS), with high research output (QS).

University of Rijeka continuously updates its teaching methods, fosters social awareness, and attends to the needs of everyone within its academic community. Our University offers quality and competitive programs affordable to a wide range of students, with adaptive tuition payment options.

Students in Rijeka have different benefits and possibilities: student accommodation, benefits for public transport and food services, discounts for cultural and entertainment content, available extra-curricular activities, student groups, sports, clubs and much more!

5.4 ESN Rijeka

ESN Rijeka

E-mail: esn.rijeka@gmail.com
www.esn.hr www.facebook.com/ErasmusRijeka

/Photo: ESN Rijeka by ESN Rijeka/

What is ESN

Erasmus Student Network (ESN) is the biggest interdisciplinary student association in Europe, and its continuing goal since 1989 is to support and develop international student exchange. It is composed of around 15,000 members from over 550 local sections in 43 countries in Higher Education Institutions, including universities, polytechnics, and university colleges, with the network offering its services to around 200,000 international students yearly.

ESN Rijeka is a voluntary student organization, a part of the Erasmus Student Network, which takes care of exchange students arriving in Rijeka and local students leaving for their exchange periods, with the support and cooperation of the International relations office of the University of Rijeka. Members of the organization, working under the motto of „Students helping students“ share a common goal to help create a bond among the Erasmus students and between Erasmus students and the local community, making their stay educative and filled with unforgettable and fun experiences and friendships.

We facilitate the social and personal integration of international students and offer help, guidance and valuable information to both incoming and outgoing exchange students. We represent the needs and

views of exchange students on the local, national and international level, and provide relevant information about academic exchange programmes and student mobility in general.

History

ESN Rijeka is a young section, involved in the Erasmus Student Network and mobility programs within Europe since 2012 however its members are highly active and motivated in making Rijeka, and Croatia, the best Erasmus places they can be.

We started with our members being solely former Erasmus students who have gotten to know and love this international family that is the Erasmus exchange, but throughout the years many younger members, local students, applied without ever being on their exchange periods. It is the good reputation of Erasmus student activities and ESN within Rijeka that has attracted them to join, help out and have fun!

Activities towards incoming students

Starting an Erasmus chapter in a new city, with a completely different culture and surroundings might be a difficult step, so we are here to help the Erasmus discover the beauties of Rijeka and its surroundings.

We offer our help through the ESN buddy program in which Erasmus students are paired with a local student helping them with the general information about our lovely Rijeka, looking for accommodation, administrative needs and getting to know the local culture. That bond often goes beyond just help and turns into a long-time friendship.

Every semester a welcome week is also organized to best facilitate the meeting and integration of Erasmus students, with a city tour and introduction events and parties.

Throughout the semester regular activities such as national and international trips, cultural, humanitarian and sports events are to be expected, as well as educational workshops, outdoor activities but also social meetups, all organised by ESN Rijeka and all with the goal of making the Erasmus exchange a memorable time, and giving Rijeka a chance to become a known and truly international student city.

Interested in a student exchange period in Rijeka, but still having doubts? Feel free to contact us at any time either through our email or Facebook page, and we would be more than glad to help!

5.5 The Rijeka School of Croatian Studies

The Rijeka School of Croatian Studies operates as part of the Department of Croatian Studies at the University of Rijeka Faculty of Humanities and Social Sciences.

It offers courses of Croatian as a second or a foreign language. The courses offered differ in duration (the number of teaching hours), content, goals and intensity. Each course combines language instruction with teaching about Croatian culture and civilisation.

The Rijeka School of Croatian Studies promotes the Croatian language, literature and culture internationally, develops modern methods of teaching Croatian as a second or foreign language, promotes mobility and administers tests of Croatian as a second or a foreign language. Other goals include developing and creating standardised testing and teaching materials, organising academic and professional conferences, and setting up professional, translation and teaching projects that promote the Croatian language, literature and culture abroad. The School co-operates with other national and foreign institutions that share its goals, with instructors of Croatian at foreign universities and academic institutions and with scholars in Croatia and abroad, and establishes connections with Croatian emigrants.

Incoming Erasmus students are advised to select the following courses: Croatian as a foreign language 1 (beginner level), Croatian as a foreign language 2 (intermediate level) and Croatian as a foreign language 3 (advanced level). Each course is carried out in 60 lecture hours, two hours / two times per week, and equals 4 ECTS credits.

The courses are part of Learning Agreement, and the student should inform the host Erasmus coordinator at the UNIRI faculty about the course attendance.

5.7 The Academic Year and the Examinations

Winter semester:
Lectures begin:

- beginning of October – for freshmen
- a week later, in October – for sophomores, juniors and seniors
- Lectures end:
- end of January

Summer semester:

Lectures begin:

- beginning of March

Lectures end:

- mid June

Examination Periods:

Winter examination period: February

Summer examination period: from mid-June to mid-July

Autumn examination period: September

5.8 Teaching System

For most study programmes, students can expect a more or less equal mix of theoretical lectures and practical work, often in the form of seminars held for a restricted number of students.

Final assessment for most programmes takes place at the end of the semester/year by written and oral examinations for each of the courses attended. Usually, the final assessment is based on performance recorded during the semester.

5.9 The Grading system in Croatia

Grades range from 1 to 5, 1 being the lowest and 5 being the highest possible grade.

<i>Croatian Marks</i>	<i>Approximate Equivalent</i>
5	<i>excellent</i>
4	<i>very good</i>
3	<i>good</i>
2	<i>satisfactory</i>
1	<i>unsatisfactory</i>

In addition to the traditional grading system, an ECTS compatible grading system (A to F) is also in place.

5.10 Diversity, Inclusion and Student Support

University of Rijeka includes a number of student services related to different aspects of support and counselling. Official services (free of charge) are provided within the University Counselling Center and include Psychological Counselling Center, Office for Students with Disabilities and Career Office.

University of Rijeka is committed to assisting all students who have permanent, occasional or temporary difficulties in the implementation of daily academic activities due to illness or impairment. Students who require additional support or assistance regarding their disability or special educational need (e.g. visual, hearing, physical impairments, learning disabilities or illnesses) should contact the Office for students with disabilities as soon as they are enrolled to University of Rijeka and before classes start. Office activities are tailored to individual student needs (e.g. exam exemptions, peer support or specialized transportation).

Like any other part of life, studying may also bring various challenges which can sometimes be easy to deal with, but sometimes also interfere with student's everyday lives. For this reason, the University's Psychological Counselling Office offers students professional psychological help needed to improve the

quality of studying and life or achieve their academic goals. Common activities include individual and group counselling, online learning assistance or psychoeducational resources (leaflets, brochures, workshops, lectures,...).

University's Career Office provides students with professional assistance related to managing their careers, supports them in developing entrepreneurial skills, educates students how to increase their prospects on the labour market and connects them with potential employers. This is achieved through various activities like counselling, informing, educations or research.

UNIRI is committed to diversity and inclusion and aims towards addressing student's individual needs. For more information on student support services and Diversity & Inclusion at UNIRI contact us at diversity@uniri.hr.

/Photo: Academy of Applied Arts by Ivan Vranjić/

The Academy of Applied Arts in Rijeka has its roots in the Department of Fine Arts, founded in 1963 at the Teacher's Training College in Rijeka as a two-year study. With the establishment of the Faculty of Education in 1977, the Department of Fine Arts started the programme of four-year study in the academic year of 1979/1980 and enrolled the first generation of students who would graduate as professors. In 1998, the Faculty of Education was renamed into the Faculty of Philosophy, so that the Department of Art Education and Fine Arts became an integral part of this higher education institution. During that period, the quality of the study gradually increased and the result of such education became evident in the emergence of many prominent art educators, artists and art historians both in the city of Rijeka and in the surrounding region. The Department of Art Education experienced further development in 2003, when the Department officially emancipated from Department of History of Art, which represents the beginning of the constitution of the Academy of Applied Arts.

/Photo: Academy of Applied Arts by Ivan Vranjić/

In 2004, the Academy received a work licence issued by the Ministry of Science, Education and Sports, and in November 2005, the Academy was constituted as a new artistic educational institution of the University of Rijeka, as the only higher education institution in Croatia that fosters applied arts. Soon the Academy became attractive for the students from all the parts of Croatia.

The Academy is founded as an institution that fosters continuous propulsive varieties of styles, materials, ideas, and a strong and distinctive tradition of artists and educators and their works. The aim is to improve the aesthetic and intellectual environment which encourages and teaches the highest level of creativity and critical thinking, encouraged by implementation of two main undergraduate and graduate study programmes, Art Education and Applied Arts, which occurred in academic year 2005/2006, and the study programme Media Arts and Practices, started as the pilot study programme in 2013/2014. From the academic year 2015/2016 the undergraduate study of Acting and Media became part of the study programmes of the Academy as well as the graduate study of Acting.

Graduate study programme of Visual Communication and Graphic Design started in the academic year 2017/2018 and the undergraduate study of Graphic Design and Visual Communications in 2020/2021.

Academy has also established four Centres of the Academy, in order to increase visibility of the Academy in public and provide its graduate students and Alumni with the opportunity for further professional development.

/Photo: Academy of Applied Arts by Luka Mjeda/

Centre for Innovative Media is active from the year 2017, Quark – Centre for ceramics from 2018, centre for Design and Production from 2017. ... and Centre for Glass and Mosaic from 2021. So far Academy has partnered up with 34 universities within the scope of Erasmus+ and CEEPUS programmes.

Today Academy of Applied Arts is a propulsive art institution with the strategy of contemporary approach within the wide field of fine arts, applied arts, art education and acting and media, and with affirmative impact on community and job market.

/Photo: Faculty of Economics, UNIRI archives/

The Faculty of Economics and Business was founded in mid-1961 as a part of the University of Zagreb. Once the University of Rijeka was founded in 1973, the Faculty became its member. In 2020/21, the Faculty of Economics and Business in Rijeka celebrated its 60th anniversary, sixty years of continuous teaching in the field of economics and business.

Since 2005/06, the Faculty of Economics and Business has been running university study programmes in line with the Bologna Declaration, within two lines of studies: Economics and Business Economics. While developing new study programmes, the Faculty opted for the 3+2+3 model, i.e. after three years of studying at the undergraduate level, students obtain an university bachelor' degree. After two years of additional studies at the graduate level, they obtain a master's degree. After attending three years of postgraduate doctoral studies, students obtain a doctoral degree. The Faculty is also running several 1-year and 1,5-year postgraduate specialist programs in varies areas.

In addition to higher education, the Faculty carries out scientific and professional work. As a part of this activity, international cooperation of the Faculty stands out as a particularly important segment that is growing and developing through various forms of cooperation with many international universities and institutions. Other important segment of the Faculty is the scientific research work, which concerns a publishing activity through its own Proceedings - The Journal of Economics and Business, which has been abstracted and indexed in SCOPUS, SSCI, ESCI, JCR, EBSCO, EconLit, SocINDEX and ERIH PLUS databases. It is also important to mention the individual scientific work of Faculty's teaching staff, which regularly publishes their papers in national and international scientific and professional journals.

/Photo: Faculty of Economics, Faculty archives/

The Faculty of Economics and Business is an institution that successfully develops scientific projects funded by Croatian Science Foundation as well as EU founded projects. The Faculty also carries out professional and feasibility studies, seminars, conferences and other scientific and research activities for purposes of the local and national economy and the local government.

Furthermore, the Faculty is a full member of the prestigious EFMD - European Foundation for Management Development in Brussels (also EPAS-accredited) and the full member of the AACSB - Association to Advance Collegiate Schools of Business, enjoying also partnerships within the PILA - Publishers International Linking Association, the CESENET - Central and South-East European PhD Network, the CEDIMES - Centre for Studies in International Development and Economic and Social Movements in Paris, the CEEPUS Network (Central European Exchange Programme for University Studies), the NISPAcee - Network of Institutes and Schools of Public Administration in Central and Eastern Europe, the EDAMBA (European Doctoral programs Association in Management & Business Administration), the PILA (Publishers International Linking Association, Inc.) and the EASE (The European Association of Science Editors).

Since 2011/12 the Faculty runs a regular English-taught study program in International Business at both study levels bachelor and master, intended for international students, exchange students (Erasmus/CEEPUS), freemovers but also for Croatian students who want to attend their studies in English.

Faculty of Tourism and Hospitality Management, University of Rijeka was established in 1960 and during the course of time it has undergone various stages and organizational forms. Since 1974 it has been a constituent of the University of Rijeka. The Faculty is situated in Opatija, one of the leading tourist destinations in Croatia. Faculty of Tourism and Hospitality Management contributes largely to the tourism sector in Croatia in the area of science and education of human resources. The goal of the teaching staff of the Faculty is to support the development of the Croatian model of tourism through their pedagogical and scientific engagement. Nowadays, the Faculty is actively engaged in numerous research projects at home and abroad and also in the organization of scientific and professional conferences and meetings.

Strategic orientation of the Faculty of Tourism and Hospitality Management is to strengthen its position as a highly respected institution of higher education for tourism, hospitality and sustainable development in the Republic of Croatia and to disseminate knowledge throughout the wider regional area. Accordingly, special emphasis is on the quality improvement of the teaching process and scientific research. Also, special attention is paid to the development of individuals and institutions as a whole, to the public activities of the teaching staff and employees, as well as to the role of the Faculty in improving the quality of life in the community.

Faculty of Tourism and Hospitality Management has recognized the importance of internationalization of higher education and therefore following activities are carried out by the Office for the international cooperation:

- developing international cooperation with partner institutions in Europe and worldwide
- encouraging mobility of students, teachers and non-teaching staff (Erasmus+, CEEPUS and YUFE programs)
- participation in international projects
- developing international educational programs
- increasing the number of members in renowned associations etc.

/Photo: Faculty of Tourism and Hospitality management, Faculty archives/

Faculty is a member of two CEEPUS networks: "Amadeus" and "Education without Frontiers". As a part of the Erasmus+ mobility program Faculty currently has more than 60 signed contracts with partners all over Europe. Every year international students can enrol in a number of subjects taught in English language under either Erasmus or CEEPUS student exchange programme. For academic year 2021/2022 the faculty offered all together 24

undergraduate and 8 graduate-level subjects.

/Photo: Faculty of Humanities and Social Sciences,
 Faculty archives/

Throughout its history, the Faculty of Humanities and Social Sciences has undergone several changes. For twenty years it operated as the Vocational College of Education and Teacher Training College. In 1977, when the Faculty of Industrial Education and the Teacher Training Colleges of Rijeka, Pula and Gospić merged and became a part of the University of Rijeka, the Faculty of Education was established. In 1998, the Faculty of Education was registered under the name Faculty of Humanities and Social Sciences.

/Photo: Faculty of Humanities and Social Sciences, Faculty archives/

The mission of the Faculty of Humanities and Social Sciences is to provide excellence in education to students in pursuit of bachelors, masters and PhD degrees in the fields of social sciences and humanities. In the academic year 2005/2006, the Faculty of Humanities and Social Sciences introduced comprehensive changes in line with the objectives defined by the Bologna Declaration, and adopted

the three-cycles of higher education qualification and the ECTS.

6.5 Faculty of Civil Engineering

Radmile Matejčić 3
HR-51 000 RIJEKA
T: ++ 385 (0)51 265-900
E-mail: info@gradri.uniri.hr
www.gradri.uniri.hr

/Photo: Faculty of Civil Engineering by Luka Mjeda/

The Faculty of Civil Engineering of the University of Rijeka was founded in 1969 and offers various university and vocational educational programmes in civil engineering. The Faculty is an active and internationally recognised partner in the promotion of existing and creation of new knowledge in the field of civil engineering and related scientific disciplines. We collaborate for scientific and educational purposes with universities and departments around the world.

Hosting students under the Erasmus+ programme is one of our strategic goals, in which we see a great opportunity for collaboration with other faculties and progress. The Faculty of Civil Engineering is a socially responsible and open faculty - open to incoming students, teaching staff, researchers, but also to modern trends in higher education. In our system, students are at the centre of the educational process, and the system of teaching and learning is continuously monitored for quality. Quality assurance is based on the provisions of the Act on Quality Assurance in Science and Higher Education, the general acts of the University of Rijeka and the applicable European standards.

/Photo: Faculty of Civil Engineering by P. Krolo/

We are located at Radmile Matejčić 3 in Rijeka, in a building of approximately 15,000 m², with a total of 14 lecture halls with modern equipment, six practicums, three IT cabinets, two rooms for independent student work, a library with a spacious reading room equipped with computers, and five fully equipped laboratories (Laboratory for Geotechnical Engineering, Laboratory for Hydraulic Engineering, Structural Engineering Laboratory, Laboratory for Materials, Laboratory for Transport Engineering)

The faculty offers the following study programmes:

UNIVERSITY STUDY PROGRAMMES

<i>UNDERGRADUATE STUDY PROGRAMME</i>	<i>Branches</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>University Undergraduate Study Programme in Civil Engineering</i>		<i>6</i>	<i>180</i>	<i>Bachelor in Civil Engineering</i>
<i>GRADUATE STUDY PROGRAMME</i>	<i>Modules</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>University Graduate Study Programme in Civil Engineering</i>	<i>Geotechnical engineering, Hydraulic engineering, Engineering modelling of structures,</i>	<i>4</i>	<i>120</i>	<i>Master in Civil Engineering</i>

	<i>Structural engineering, Transportation engineering Urban engineering</i>			
POSTGRADUATE STUDY PROGRAMME		<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Postgraduate Study Programme in Civil Engineering</i>		<i>6</i>	<i>180</i>	<i>Doctor of Technical Sciences</i>

VOCATIONAL STUDY PROGRAMMES

STUDY PROGRAMME	Branches	Semesters	ECTS	Vocational title acquired on completion of programme
<i>Vocational Study Programme in Civil Engineering</i>	<i>Building Construction, Civil Engineering Construction</i>	<i>6</i>	<i>180</i>	<i>Vocational Bachelor in Civil Engineering</i>
GRADUATE STUDY PROGRAMME	Branch	Semesters	ECTS	Vocational title acquired on completion of programme
<i>Specialisation Vocational Graduate Programme in Civil Engineering</i>	<i>Building in Coastal Region and Infrastructural Engineering</i>	<i>4</i>	<i>120</i>	<i>Specialist in Civil Engineering</i>

6.6 Faculty of Medicine

Braće Branchetta 20
HR - 51 000 Rijeka

<https://medical-studies-in-english.com/>

The Faculty of Medicine in Rijeka was founded in 1955. It was the first faculty established outside Zagreb and is the eldest member institution of the University of Rijeka.

The Faculty's activities began with teaching in the final years of medical studies. After having gained complete independence from the University of Zagreb's Faculty of Medicine in 1957, teaching activities developed rapidly, with an increasing number of academic staff holding teaching and research positions. In 1961, a postgraduate study was established at the Faculty along with the study of Medicine and numerous other university and vocational study programs have since been introduced.

Research activities began to develop soon after the Faculty was founded. The first doctoral dissertation was presented at the Faculty as early as 1959. The rapid development of fundamental medical sciences contributed significantly to the research and professional development of clinical medical sciences.

By the end of the 1970s, the Faculty introduced a vocational study in Nursing, followed by other studies that are still carried out. All study programs were renewed in accordance with the Bologna process in 2005, and the ECTS evaluation system was adopted. A university study in Organization, planning and management in health care was designed on the principles of the Bologna declaration, and finally a vocational study in Midwifery was established.

The Faculty of Medicine in Rijeka is the most influential research institution in the Republic of Croatia outside Zagreb and the most widely recognized research institution of the University of Rijeka.

Several internationally recognized research teams at the Faculty are recognized as leaders in their respective fields. A major contribution to research development and recognition was provided by the employment or re-employment of several recognized scientists from abroad who formed their groups and continued their successful work. The Faculty of Medicine has invested significantly in the education of research and academic staff, as well as in modern equipment and the establishment of new laboratories and centres.

The Faculty of Medicine has organized numerous scientific congresses and symposia, some of which were at the highest international level. Many Croatian and international awards as well as the highest state science awards of the Republic of Croatia were granted to researchers of the Faculty of Medicine.

UNIVERSITY STUDIES			
<i>Undergraduate studies</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Environmental and Public Health</i>	<i>6</i>	<i>180</i>	<i>Baccalaureus / baccalaurea of Environmental and Public Health</i>

/Photo: Faculty of Maritime Studies, UNIRI archives/

Educational activities at the Faculty of Maritime Studies date back to 1866 when, in the building of the former hospital, the Austrian-Hungarian Naval Academy opened its doors. Since 1889, the Academy had acted as the Imperial and Royal Naval Academy (Marine Academy). The Academy was open until 1914 when educational work was abandoned and the Academy turned into a field hospital.

Disruption in higher education in the field of maritime affairs lasted until 1949, when on fourth of April 1949 the Maritime College in Rijeka was established by a Yugoslav government decree and later became a Faculty and has continued its work to the present day.

In the academic year of 2005/2006, Faculty of Maritime Studies began with the implementation of the Bologna process by accepting the system of education that is based on three cycles: undergraduate, graduate and postgraduate studies. The curricula contain the necessary knowledge in the field of nautical studies, marine engineering, transportation technology, economics, law and management in shipping. Application of this knowledge allows recruitment and successful work in the profession, as well as in different maritime and transport agencies and companies whose activities are closely associated with shipping (shipping, sea ports, port authorities, the ministries responsible for maritime industry, cargo ships/freighters, agencies, the customs, transport companies, etc.).

/Photo: Faculty of Maritime Studies by Kristijan Vučković/

The Faculty continuously updates and improves the education of seafarers (deck and engine officers) for shipping companies, European and world market, experts for navigation and maritime technology, experts for marine engineering and maritime transport, experts for technology and organization of traffic, experts for logistics and management in maritime transport, experts for intermodal / multimodal transport, experts for electronic and computer technologies in maritime affairs. The Faculty develops and promotes the principles of safe and efficient navigation, the culture of safety at sea and protection of maritime environment. It also develops and updates postgraduate national and international Ph.D. studies concerning maritime affairs that are based on the latest scientific accomplishments. Faculty of Maritime Studies is a Croatian reference centre of excellence in sustainable use of satellite navigational systems on national level, and directs its scientific – research and expert activities towards accomplishing the goal of sustainable application of satellite navigation, which serves as a very important base of the national infrastructure.

DEPARTMENTS AND CHAIRS:

- Department of nautical sciences
- Department of marine engineering and energetics
- Department of maritime logistics and management
- Department of electrical engineering, automation and computing
- Department of maritime and transportation technology
- Chair of natural sciences

- Chair of social sciences
- Chair of foreign languages

SIMULATORS AND LABS: Nautical simulators, Engine-room simulators, High Voltage Simulator, Cargo Handling Simulator, GMDSS Station, Laboratory for Control Engineering and Power electronics, Laboratory for Marine Electrical Machines and Systems, Laboratory for marine High Voltage systems, Refrigeration Systems Simulator, Computer Lab, Satcom A Station, Navigational GNSS Laboratory, Language Lab, Maritime Engineering Laboratory, Laboratory for electronics and measurements.

<i>UNDERGRADUATE STUDY:</i>				
<i>Study programme</i>	<i>Module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>

/Photo: Faculty of Law, Faculty archives/

Faculty of Law is a constituent of the University of Rijeka. The Study of Law was started in 1973. At first, it was a part of the University of Rijeka, Faculty of Economics. In 1976, the University of Rijeka, Faculty of Law was established as an independent higher education institution, where the Study of Law continued to be carried out. In 1985, the Faculty changed its name and became the University of Vladimir Bakarčić Faculty of Law in Rijeka, and then changed the name again in 1991 into what it is known as today: the University of Rijeka, Faculty of Law. Before it got its own building, the Faculty occupied several buildings at different locations. The present location became its home in 1980 when the building was finished. The new, "east" wing of the building was built in 2003.

/Photo: Faculty of Law, Faculty archives/

The Faculty carries out six study programmes. The integrated undergraduate/graduate university Study of Law has been carried out, with certain changes and amendments in accordance with positive legal regulations, since the establishment of the Faculty; upon completion, students are awarded the academic title of Master of Jurisprudence (Mag. iur.). In the academic year 2007/2008, the Faculty started the Postgraduate Specialist Study in Criminal Investigation; upon completion, students were awarded the academic

title of University Specialist in Criminal Investigation (Univ. spec. crim.). The Study programme is currently carried by the University of Rijeka, as a Postgraduate Specialist University Study programme.

In the academic year 2009/2010, the Faculty started the Postgraduate Specialist Study in Law of European Integrations; upon completion, students are awarded the academic title of University Specialist in Law of European Integrations (Univ. spec. iur.). In the academic year 2012/2013, the Faculty started the Postgraduate Specialist Study in Corporate Finance Law; upon completion, students are awarded the academic title of University Specialist in Corporate Finance Law (Univ. spec. iur.). In the academic year 2011/2012, the Faculty started the Postgraduate Doctoral Study Programme in the field of Social Sciences, the subject of Law; upon completion, students are awarded the academic title of Doctor of Science in the field of Social Sciences, the subject of Law (Ph.D.). In the academic year 2005/2006, the Faculty started the Undergraduate Professional Study Programme in Administration; upon completion, students are awarded the professional title of Professional Bachelor of Public Administration (Bacc. admin. publ.). In the academic year 2011/2012, the Faculty started the Specialist Graduate Professional Study Programme in Public Administration; upon completion, students are awarded the professional title of Professional Specialist in Public Administration (Spec. publ. admin.).

The Faculty was founded in 1960. At the beginning, only education in Mechanical Engineering was offered, but since 1969/1970 graduate engineers of Naval Architecture were also educated. The Faculty was renamed into the Mechanical-Naval Architecture Faculty and, in 1973, into the Faculty of Engineering. The opening of the study of Civil Engineering in 1971/72 at the Faculty brought about the establishment of the independent Faculty of Civil Engineering in 1976.

In 1965, the Faculty organised courses for higher vocational qualification, while in 1987 the vocational study of Electrical Engineering began. In the academic year of 1971/1972, the postgraduate study in the field of Mechanical Engineering and Naval Architecture were introduced respectively.

/ Photos: Faculty of Engineering, Faculty archives/

In the past decade, the Faculty has intensively taken actions on developing new study programmes which resulted in the beginning of the graduate university study in Electrical Engineering in the academic year of 1999/2000, the undergraduate university study in Computer Engineering in the academic year of 2008/2009, and the graduate university study in Computer Engineering in the academic year of 2011/2012.

Currently, the Faculty offers vocational and university studies in Naval Architecture, Electrical Engineering, Computer Engineering, and Mechanical Engineering, as well as postgraduate doctoral studies in the fields of Mechanical Engineering, Naval Architecture, Fundamental Engineering Sciences, Interdisciplinary Engineering Sciences and Electrical Engineering.

Title of the Undergraduate Study:	Course / Orientation / Module	Semesters	ECTS	Academic title acquired on completion of programme

/Photo: Faculty of Teacher Education, Faculty archives/

Education of teachers of lower grades of primary school began in Rijeka as early as 1960 as part of the Teacher Training College. At the first stage, from 1960 to 1963, the undergraduate early primary education study combined with another subject of instruction (Croatian, Mathematics, Geography and History) and was conducted at the institution, the purpose of which was to educate teachers for primary schools. The College had the status of a collegiate school and the study lasted for two years. The named study, also in duration of two years, continued to be conducted between 1978 and 1992, when the Teacher Training University College was established.

/Photo: Faculty of Teacher Education, Faculty archives/

In 1992 the study was structured as a four years university study, upon whose completion students acquire university qualifications and the title of Graduate Early Primary School teacher. The university study was conducted at the Teacher Training University College, namely subsequently established Faculty of Humanities and Social Studies in Rijeka until 1998, when the Faculty of Teacher Education was established in Rijeka. The basic activity of the Faculty was structuring and conducting the vocational undergraduate four years study educating teachers for lower grades of primary schools as well as the vocational study for preschool teachers and assistants in kindergartens. The undergraduate teacher study was conducted at first as a study with a major subject (Physical Education, Music and Art) and starting with the academic year 2001/2002 as the so called "pure" vocational study of early primary school education. This study has been, after adapting to the requirements of the Bologna process, conducted under the name of Vocational Early Primary Education Study.

Based on the resolution signed by the Minister of Science, Education and Sports on 22 September 2006, Faculty of Teacher Education in Rijeka was registered in the Register of Higher Education Institutions of the Ministry of Science, Education and Sports.

At the moment, the Faculty is conducting the Integrated Undergraduate and Graduate Primary School Education university study as well as Undergraduate and Graduate Early Childhood and Preschool Education university study.

Faculty of Health Studies is the youngest faculty of the University Rijeka and it was detached from the Faculty of Medicine in 2014.

Faculty of Medicine in Rijeka was founded in 1955, but Rijeka got its first hospital and schooled physicians as early as 1440s, and the City Statute in 1530. Faculty of Medicine was the first medicine faculty in Croatia established outside Zagreb and it is the eldest member institution of the University of Rijeka. By the end of the 1970s, the Faculty of Medicine introduced a vocational study in Nursing, followed by other vocational studies: Physiotherapy, Medical Laboratory Diagnostics, Radiologic Technology, and at the end Midwifery. All these study programs were renewed in accordance with the Bologna process in 2005, and the ECTS evaluation system was adopted. Later, a number of university study programs have been also introduced on Faculty of Medicine. All these vocational studies as well as some university studies were relocated to new Faculty of Health Studies.

The building hosting Faculty of Health Studies was constructed in the 1940s and was supposed to offer poor people warm meal and shelter, but at the end of 2013 it was renewed and hosted Faculty of Health Studies.

/Photo: Faculty of Health Studies, Faculty archives/

It is interesting to mention some historical facts as that the first public midwifery school in Croatia was founded in Rijeka in 1786, by Giacomo Cosmini and Giovanni Carrobi. In February 1896, only a month after Röntgen's discovery, the first X-ray scan in Croatia was obtained by the physicist Peter Salcher, a professor at Rijeka Navy Academy and a collaborator of Ernst Mach at ultra-fast photography research. Salcher was the first in the world to photograph a gun bullet in flight. Also, the vacuum

extractor for babies was invented in Rijeka in 1952, by Viktor Finderle (1902–1964).

The aim of the formation of the Faculty of Health Studies and the main mission of the Faculty is to provide excellence in education of students in the fields of health care.

The main Faculty's activity is teaching, but also developing scientific research activities and scientific projects, as well as new study programs, including interdisciplinary studies. International cooperation of the Faculty of Health Studies is also very important segment and we develop it through various forms of cooperation with international universities and institutions.

UNIVERSITY STUDIES			
Graduate studies	Semesters	ECTS	Academic title acquired on completion of programme
Nursing – Mental Health	4	120	Master of Nursing
Nursing – Healthcare Management	4	120	Master of Nursing

<i>Physiotherapy</i>	<i>4</i>	<i>120</i>	<i>Master of Physiotherapy</i>
<i>Clinical Nutrition</i>	<i>4</i>	<i>120</i>	<i>Master of Clinical Nutrition</i>
<i>Midwifery</i>	<i>4</i>	<i>120</i>	<i>mag. obs.</i>
<i>VOCATIONAL STUDIES</i>			
<i>Vocational studies</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>

6.12 Faculty of Dental Studies

Faculty of Dental Medicine
Krešimirova 40/42
HR – 51 000 Rijeka
E-mail: dekanat@fdmri.uniri.hr
www.fdmri.hr

The Faculty of Dental Medicine was founded on 23 July 2019 by decision of the University of Rijeka. The Faculty consists of six departments: Department of Oral Surgery, Department of Paediatric Dentistry, Department of Endodontics and Restorative Dental Medicine, Department of Oral Medicine and Periodontology, Department of Orthodontics and the Department of Prosthodontics.

The primary role of our Dental Faculty is the training of dental students to become qualified dentists with key skills and clinical competencies. The oral care provided by our dental students is overseen by highly experienced dentists, dental specialists and university professors. In this way, our patients receive high-quality treatment while our students gain essential experience in an ideal learning environment.

The clinical part takes place at the Clinical Hospital Centre Rijeka – a complex of 33 clinics and clinical departments with 1069 beds and a staff of 3252 doctors and nurses, complemented by Health Centre Rijeka, state and private institutions.

Our dentistry program attracts international students from all over the world including Germany, Italy, France. Our small intake means that you will work closely with our academic staff, you will be taught in small groups and you will get a sense of belonging to a powerful team of classmates and practitioners offering you continuous support for personal and academic development.

Faculty of Informatics and Digital Technologies (formerly known as the Department of Informatics) at the University of Rijeka resulted from a long-term development of educational and scientific activities in the field of informatics which date back to the year 1986 when the Institute of Informatics was founded (later renamed as the Department of Informatics) at the Faculty of Arts and Sciences (later renamed as the Faculty of Humanities and Social Sciences) in Rijeka.

The Faculty of Informatics and Digital Technologies was founded in April 2008 as Department of Informatics with the mission of creating conditions necessary for scientific research in the area of social sciences in the field of information and communication sciences and in the area of technical sciences in the field of computing. Members of the Faculty work on educational and scientific activities in the domain of information systems, intelligent systems, networking, and communication systems, including the development of multimedia learning support systems (e-learning systems). The aim of the Faculty is to be profiled as the leading institution in the field of information and communication sciences and related disciplines, within and outside the region, and to significantly intensify cooperation with the economy in order to better prepare the students for future work challenges.

/Photo: Department of Informatics, UNIRI archives/

The Faculty of Informatics and Digital Technologies has seven chairs and five laboratories, which are organised to support educational and scientific activities: the Chair of Software Development, the Chair of Intelligent Systems, the Chair of Communication and Computing Systems, the Chair of Multimedia Systems and E-learning, the Chair of Information Systems, the Chair of Business Informatics, and the Chair of Applied Mathematics and General Subjects. The five laboratories include the following: Laboratory for Pattern Recognition and Soft Computing, Laboratory for Semantic Technologies, Laboratory for Application of Information Technologies in Education, and Laboratory for Development of Information Systems.

<i>Undergraduate study:</i>	<i>Study / orientation / track</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Undergraduate study programme in informatics</i>		6	180	<i>Bachelor of Informatics</i>
<i>Graduate study:</i>	<i>Study / orientation / track</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>

/Photo: Faculty of Mathematics, UNIRI archives/

As a successor to various institutions that have been educating teachers of mathematics since the 1960's, the Faculty of Mathematics was established in April 2008, first named as Department of Mathematics, based on the Decision which was passed by University of Rijeka's Senate in December 2007. By another decision of the Senate in September 2021, Department of Mathematics became the Faculty of Mathematics. Most of the mathematicians from the University of Rijeka are either employed by, or in some way associated with the Faculty of Mathematics.

The studies which are organised and conducted by the Faculty of Mathematics, University of Rijeka, are: the first cycle study programme in mathematics and the second cycle study programme in mathematics and computer sciences.

The Faculty is divided into divisions: Division of Algebra and Number Theory, Division of Discrete Mathematics and Division of Mathematical Analysis. Since 2011, the Faculty has been organising and conducting the first graduate study programme of mathematics unrelated to teacher education at the University of Rijeka: Discrete Mathematics and its Applications. This study programme differs in its content and learning outcomes from other existing study programmes of mathematics in the Republic of Croatia (that are not aimed at education of future teachers).

Some of the most notable projects of the Faculty of Mathematics so far were the organization of NATO Advanced Study Institute on Information Security and Related Combinatorics in 2010 and 5th Croatian Mathematical Congress in 2012.

<i>Nomenclature of first cycle study programme: (Bachelor level)</i>	<i>Course</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Mathematics</i>		<i>6</i>	<i>180</i>	<i>Bachelor of Science in Mathematics (BSc level)</i>
<i>Nomenclature of second study programme: (Master level)</i>	<i>Course</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Mathematics</i>	<i>Teacher training</i>	<i>4</i>	<i>120</i>	<i>Master of Science in Mathematics Education (MSc level)</i>
<i>Mathematics and Computer Science</i>	<i>Teacher training</i>	<i>4</i>	<i>120</i>	<i>Master of Science in Mathematics and Computer Science Education (MSc level)</i>
<i>Discrete Mathematics and its Applications</i>		<i>4</i>	<i>120</i>	<i>Master of Science in Mathematics (MSc level)</i>

6.15 Faculty of Physics

Radmile Matejčić 2

T : + 385 (0) 51 584-600

/Photo: Faculty of Physics by N. Erceg/

The Department of Physics of the University of Rijeka was established at the end of 2007 as a successor to schools involved in the education of high-school teachers since the 1960's.

The Vocational College of Education was established in 1953 with the aim of providing education for teachers of mathematics and physics in vocational-technical and economic schools. The Department of mathematics and applied physics was established in the academic year of 1960/61. In 1962, the Vocational College of Education changed its name to School of Industrial Education which was transformed (in 1972) into the Faculty of Industrial Education with university courses in mathematics and physics. The Faculty of Education in Rijeka was established in 1977, including the Department of mathematics and physics as a part of it. In 1998, the Faculty was registered under the name Faculty of Philosophy (Faculty of Arts and Sciences) with the Physics Department as one of the founding members.

/Photo: Faculty of Physics by N. Erceg/

More ambitious development of the University of Rijeka in the recent years has led to the establishment of an independent Department of Physics as a modern university department with the mission of organizing physics teaching at all Faculties and Departments of the University and performing internationally recognized scientific research. In

this process, several respected scientists from foreign and domestic institutions have joined the Department. In this way, the Department has not only increased in the number of permanent staff, but also in the diversity of the research subjects, covering areas from atomic and molecular physics, nuclear physics or condensed matter physics, to particle physics, astrophysics, educational physics or the most fundamental research in unification of forces and superstring theory.

With the opening of the new building on the University Campus on Trsat the Department of Physics acquired adequate space that substantially improved the teaching, research and student standard. Also, the new laboratories, established jointly with Centre for micro nano-sciences and technologies, have been equipped with the state-of-the-art scientific equipment, while the existing ones were substantially modernized with financial support from the European Regional Development Fund and specifically by the University of Rijeka project "Development of the research infrastructure on the Trsat Campus". The students now have the opportunity to work on modern equipment equal to one found in the most advanced European laboratories. As a result of its development, the Department of Physics was renamed recently and became Faculty of Physics. It offers several programs in physics and two interdisciplinary studies.

<i>Name of the undergraduate study:</i>	<i>Optional subject</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>

<i>Physics</i>	<i>Mathematics (there are still two possible choices: teacher training or research module)</i>	<i>6</i>	<i>180</i>	<i>Bachelor of physics</i>
	<i>Computer science (there are still two possible choices: teacher training or research module)</i>	<i>6</i>	<i>180</i>	
	<i>Environmental Science</i>	<i>6</i>	<i>180</i>	
	<i>Physics</i>	<i>6</i>	<i>180</i>	
<i>Name of the graduate study:</i>		<i>Semesters</i>	<i>ECTS</i>	<i>Title</i>
<i>Physics and mathematics</i>	<i>Teacher-training</i>	<i>4</i>	<i>120</i>	<i>Master of education for physics and mathematics</i>
<i>Physics and computer science</i>	<i>Teacher-training</i>	<i>4</i>	<i>120</i>	<i>Master of education for physics and computer science</i>
<i>Physics</i>	<i>Theoretical</i>	<i>4</i>	<i>120</i>	<i>Master of physics</i>
	<i>Experimental</i>	<i>4</i>	<i>120</i>	<i>Master of physics</i>

F: +385 51 584-599
E-mail: ured@biotech.uniri.hr
www.biotech.uniri.hr

/Photo: Department of Biotechnology, UNIRI archives/

The Department of Biotechnology was founded in July 2008 by the Senate of the University of Rijeka as a research and teaching unit. It comprises of two divisions: Molecular and System Biomedicine Division and Medicinal Chemistry Division. Main research activities at the Department are performed in both fundamental and applied research areas of molecular medicine, medicinal chemistry and high-throughput personalized medicine by use of state of the art technology and equipment. The Department holds a number of co-operations with international research companies involved in drug research and development or new medical diagnostic procedures.

/Photo: Department of Biotechnology, UNIRI archives/

The mission of the Department is to educate highly qualified biotechnology experts to benefit human health, science and economy for the entire community in Croatia and abroad. Department of Biotechnology strives to provide the best education and research through recruitment and retention of best teachers, scientists and students, by providing the best infrastructure and engaging in collaborative worldwide exchange with the best centres

of higher education and research. Its main strategies are therefore:

- To advance science by bringing together outstanding researchers inside and outside the University
- To provide infrastructure and access to the state-of-the-art facilities and technologies
- To advance learning by combining technical skills, scientific integrity, and real-world opportunities
- To facilitate integration of research methods and state-of-the-art techniques into the curriculum
- To access external funding through grants, contracts and endowments
- To present and publish results in peer-reviewed venues.

Department of Biotechnology has been given national accreditations for teaching undergraduate, graduate and PhD students. Main study programme subjects at the Department of Biotechnology are comprised of biotechnology, chemistry and drug development.

<i>Undergraduate study</i>		<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Biotechnology and Pharmaceutical Research</i>		6	180	<i>Baccalaureate of biotechnology and pharmaceutical research</i>
<i>Graduate studies:</i>		<i>Semesters</i>	<i>ECTS</i>	<i>Academic degree</i>
<i>Drug Research and Development</i>		4	120	<i>Master's degree in drug research and development (Msc.)</i>

<i>Medicinal Biotechnology</i>		4	120	<i>Master's degree in medicinal biotechnology</i>
<i>Medicinal Chemistry</i>		4	120	<i>Master's degree in medicinal chemistry (Msc.)</i>

/Photo: School of Politehnics, UNIRI archives/

The School of Polytechnics founded in 1953, originally conceived with the aim of educating the teachers in production technology and technical vocational schooling has through the years incessantly operated and evolved within the framework of various institutions: Vocational and Pedagogical Junior College (1953-1962), Industrial Pedagogy Academy (1962-1972), Faculty of Industrial Pedagogy (1972–1978) which was one of the founding institutions of the University of Rijeka in 1973, Faculty of Pedagogy (1978-1998), Faculty of Humanities and Social Sciences (1998-2017) and since 2017 the University of Rijeka.

The undergraduate study of Polytechnics and a graduate study of Polytechnics and Informatics were among the first at the University of Rijeka to receive positive reviews from domestic and foreign reviewers, confirming their quality and adaptation to European standards in education.

The School has through the years proved modern and innovative. It educates engineers who acquire broad education in various technical fields and thus the capacity for understanding complex technical systems and their impacts on the environment while at the same time getting management and entrepreneurship training. Graduate study provides further knowledge in IT and teaching methodology ensuring that they become good educators.

The school is interdisciplinary in character and thus appropriate for present times that pose demanding requirements before the society that may only be resolved through holistic approach.

<i>UNIVERSITY STUDIES</i>			
<i>Undergraduate study</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Polytechnics</i>	<i>6</i>	<i>180</i>	<i>Bachelor of Polytechnics</i>
<i>Graduate study</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Polytechnics and Informatics</i>	<i>4</i>	<i>120</i>	<i>Master of Science of Polytechnics and Informatics Education</i>

6.18 University Study of Logopedics

The Speech and Language Pathology study programme was founded in 2020. In 2020/21, the first generation of students was enrolled in the first year. The enrollment quota is 30 students per year. Study programme is aimed at acquiring a wide range of knowledge and skills that provide students with an understanding of various phenomena that can lead to impaired communication skills, as well as language, speech, voice and swallowing abilities.

The study program enables the acquisition of competencies for prevention, diagnostics, therapy and counseling in the field of human communication and swallowing disorders. Interdisciplinarity of the study programme contributes to the personal development of the student, and due to acquired knowledge enables them to feel as a useful member of society who helps vulnerable groups and groups at risk of social exclusion. This interdisciplinarity gives students the opportunity for further training in various scientific fields and sectors of work (health care system, education, social welfare system, private practice etc.).

/Photo: V. Martan/

Teaching and clinical unit and an integral part of the Speech and Language Pathology study programme is Speech and language pathology centre (UniLOG). Its mission is providing speech and language therapy services to the local community, professional practice for students, organization of lifelong learning programs for speech and language therapists and other professionals as well as multidisciplinary research.

After completing the undergraduate university study programme, it is possible to continue education in the graduate study programme of Speech and Language Pathology at the University of Rijeka, which is in preparation.

<i>Undergraduate study programme</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Speech and Language Pathology</i>	<i>6</i>	<i>180</i>	<i>Bachelor of Speech and Language Pathology</i>
