

# Challenge Teams

Starting in March 2024

Join a **team of international students** from different knowledge fields to find innovative solutions to **real-life problems** in 3 months, **guided by mentors**.

## Innovative Methodology:

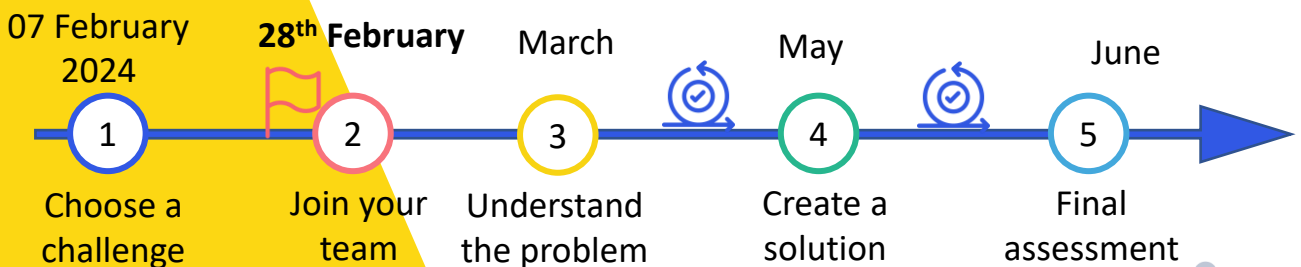

- Design thinking and Agile based methodology
- New learning experiences
- Soft skills training

## Participant requirements:

- Being enrolled at Yufe University
- Apply alone or with colleagues
- Willing to work in team and co-create solutions

## Challenges Spring 2023/2024

1. Tourism vs. education - How do Erasmus participants choose their education destination: a study of their motives
2. Exploring Political and Dyadic Negotiations: finding ways to resolve a contested property status.
3. Identifying ways to encourage the philanthropic activities of Gen Z.
4. Fostering Students' Security in University Cities – the city of Kuopio.
5. Exploring The New Frontier in Medical Education: The Use of ChatGPT in Teaching and Student Learning in Medicine.
6. Concepts and practices of modern bioeconomy to address global challenges: the case of Forest Joensuu
7. Why reuse in (new) food and beverage products.
