

FIRST ANNOUNCEMENT

MEDRI 2025

SECOND INTERNATIONAL CONFERENCE ON
TEACHING AND LEARNING IN MEDICAL EDUCATION

FUTUREMED

Transformative Era of Higher Education

with

**Second International
Student Symposium
on Future Doctors
Educating the World**

27 – 29 NOVEMBER 2025 / Hotel Ambasador, Opatija

FUTUREMED

Transformative Era of Higher Education

WELCOME NOTE

Dear Colleagues,

It is with great honour and pleasure that we announce the organisation of MEDRI 2025 – The Second International Conference on Teaching and Learning in Medical Education, hosted by the Faculty of Medicine in Rijeka. Following a series of successful initiatives in the advancement of medical education within higher education, this year's conference will be held under the theme FUTUREMED: Transformative Era of Higher Education.

The MEDRI 2025 conference holds particular significance as it coincides with the celebration of the 70th anniversary of our Faculty, serving as a distinguished prelude to a week of commemorative events held in its honour. Building on the remarkable success of the inaugural conference in 2023, which brought together over 400 in-person and 1,300 virtual participants, our goal is to establish a biennial tradition of fostering dialogue, collaboration, and innovation in medical education.

MEDRI 2025 will take place from 27th to 29th November 2025 at Hotel Ambasador in Opatija, Croatia. As with the first edition, the conference will bring together key stakeholders in medical education across the Republic of Croatia. This year, the scope will expand to include participants from neighbouring countries and the United States of America, thereby further enriching the regional and international exchange of knowledge and best practices.

The conference is organised in collaboration with prominent institutions, including the Croatian Medical Chamber, the Croatian Medical Association, the Faculty of Medicine in Maribor, the Faculty of Medicine in Mostar, the Clinical Hospital Centre Rijeka, and the University of Rijeka. We are also proud to partner with more than 20 institutions of higher education, including all four remaining medical faculties in Croatia.

MEDRI 2025 is open to educators, students, healthcare professionals, academic leaders, and administrative staff involved in medical and healthcare professions education. The programme will highlight contemporary trends and challenges in medical education, this year with a focus on undergraduate and graduate levels, as well as teacher education in the form of lifelong learning, particularly in light of the ongoing digital transformation that is reshaping the landscape of higher education. The conference will feature short lectures, panel discussions, interactive workshops,

and poster presentations, showcasing exemplary practices from institutions across Croatia and other countries. In addition, we are pleased to reveal a preliminary selection of keynote transformative sessions, alongside an innovative talk-show format titled Inspirational Sessions, designed to highlight the professional journeys of educators and students who will inspire others through their personal experiences.

Finally, we are especially proud to announce the return of the Second International Student Symposium: Future Doctors Educating the World, a satellite event that will convene more than 20 student organisations and associations from Croatia and the surrounding region. We are delighted to welcome students as active participants in MEDRI 2025 conference, as their presence affirms the very purpose of our efforts—medical education holds meaning only when it is shaped with, and for, those who represent its future.

We warmly invite you to join us in Opatija, the Pearl of the Adriatic and the Queen of Tourism, as we collectively explore the future of medical education in a rapidly evolving global context.

Presidents of the Organizing Committee

Nina Pereza, MD, PhD, associate professor
Head, Centre for Improving Teacher Competencies
and Communication Skills, Faculty of Medicine in Rijeka

Goran Hauser, MD, PhD, professor
Dean, Faculty of Medicine in Rijeka

CONFERENCE TOPICS

27. 11. TRANSFORMING HOW STUDENTS LEARN /

28. 11. TRANSFORMING HOW TEACHERS TEACH /

29. 11. TRANSFORMING HOW STUDENTS AND TEACHERS RELATE

THEMATIC SESSIONS

(OPEN FOR ABSTRACT SUBMISSION)

- Artificial vs human intelligence
- Burn-out syndrome and the importance of mental health of students and teachers
- Diversity and inclusivity
- Early integration of clinical contents to preclinical courses
- Faculty educational development
- Health literacy education
- How students and teachers form relations
- Innovations in authentic learning methods in medical education
- International competencies
- Interprofessional education
- Microcredentials vs lifelong learning programmes
- Novelties in simulation-based learning
- Patient education
- Pharmacy education
- Skills4Life: Empowering healthcare professionals with skills for success in the workplace
- Teaching soft skills in the era of digitalisation
- Trends in assessment
- Understanding the specificities of generation Z

(All topics focus on undergraduate and graduate level of medical education, as well as teacher education in the form of lifelong learning.)

INSPIRATIONAL SESSIONS

(BY INVITATION ONLY)

- The Teacher Matters! Behind the Classroom Scene: Showcase Your Professional Story
- Teacher(s) and Student(s) as Partners: Collaborative Projects in Medical Education
- Let's Hear it From Them! How do Students of Generation Z Learn?

KEYNOTE TRANSFORMATIVE SESSIONS

(BY INVITATION ONLY)

- Transforming Educational Literature: Trends in Virtual Publishing
(Powered by the Centre for Improving Teacher Competencies and Communication Skills of the Faculty of Medicine in Rijeka, University Library of Rijeka, Library for Biomedicine and Health in Rijeka, and Frontiers publisher)
- Faculty Development as a Major Transformative Power
- The Power of Association: United for Progress
(Powered by the Faculty of Medicine in Rijeka and Association of Croatian American Professionals)
- NBME Course: Trends in Assessment
(Powered by the National Board of Medical Examiners)
- CARNET Course: Artificial Intelligence in Higher Education (Powered by CARNET)

ACTIVE PARTICIPATION AND ABSTRACT SUBMISSION

TYPES OF ACTIVE PARTICIPATION

- **LECTURES** - Presentation of new insights, hot topic overviews, and original results, 10 minutes.
- **PANEL DISCUSSIONS** - Exchange of ideas, opinions, and directions in key areas, 45 minutes.
- **WORKSHOPS** - Practical application of innovative solutions, 60 minutes.
- **E-POSTERS FOR MODERATED POSTER SESSIONS** - Presentation of original results, 7 minutes.

Abstract guidelines

Abstracts should be written in English in Microsoft Word for all types of active participation and submitted through the following form <https://www.vivid-original.com/dogadjaj/medri-2025/#abstracts> until **1 October 2025 at 23:59 (CET)**. Upon abstract submission, please choose the most appropriate type of active participation and conference topic for your presentation. Abstract templates are available at the link above. One author may submit more than one abstract.

Abstracts should be written using Calibri font with the line space of 1, and font size 11. The title should be written in capital letters. On a new line, write the full name and surname of all authors. Underline the name of just one author who will present the work (presenting author). Under the authors' names, write the affiliations for all authors in the following order: institution, department, city, country. Associate each affiliation with the appropriate author by writing Arabic numerals in superscript next to the author's last name and at the beginning of the affiliation. On a new line, provide the email address of the author who will be the presenter. Do not include authors' academic titles. The abstract text should be written as a single paragraph with a maximum of 2,700 characters with spaces not counting the title, authors, affiliations and keywords. Under the abstract text write 4-6 keywords using Medical Subject Headings (MeSH) and separate them by semicolons. Please do not include figures, tables, abbreviations or references.

All abstracts must include one or two sentences stating the aim of the presentation. Abstracts in the form of reviews or overviews should not be structured into sections (Lectures, Workshops, Panel Discussions). However, for those Lectures and Posters which include the results of original research, the abstract should be structured into the following sections: Aim, Materials and Methods, Results, and Conclusions. Finally, for those Lectures and Posters which include case reports, the abstract should be structured into: Aim, Case Report, and Conclusions.

During submission, the submitting author will have the opportunity to select whether they would like to nominate their work for one of the **Awards for Excellence in Medical Education**.

Abstract results announcement, publication and author obligations

(Please read carefully)

Submitting authors will be notified of abstract results via e-mail **on 15 October 2025** and will be provided with further instructions and Conference logo for their presentations, which must be included on all PowerPoint presentations and e-posters.

Accepted abstracts will be **published at the beginning of 2026**. In addition, the authors of best presentations selected by the Presidents of the Organising Committee after the Conference, will have the opportunity to publish their work in the form of a scientific article in December 2026 in a special edition of **Medicina Fluminensis**, the official journal of the Croatian Medical Association – Rijeka Branch and the Faculty of Medicine in Rijeka. Finally, the **Frontiers** publisher will launch a special Research Topic on the theme of the conference in 2026.

The presenting author of an accepted abstract is required to **pay the registration fee by 20 October 2025** and **attend the conference in-person**, both of which are mandatory conditions for publishing the abstract.

E-poster guidelines

E-posters should be created using Microsoft PowerPoint, consisting of a single slide formatted in Landscape orientation with dimensions of 1920 pixels by 1080 pixels (16:9 aspect ratio). The authors will be provided with the link to upload their poster(s) after the acceptance of their abstract(s). The presenting authors are expected to be present by their posters during the Moderated Poster Sessions.

AWARDS FOR EXCELLENCE IN MEDICAL EDUCATION

AWARDS FOR TEACHERS

- **BEST INNOVATIVE PRACTICE IN MEDICAL EDUCATION** - Awarded by the members of the Centre for Improving Teacher Competencies and Communication Skills, Faculty of Medicine in Rijeka, Croatia
- **BEST PHARMACY EDUCATION AWARD**
- **BEST ORAL PRESENTATION / BEST POSTER PRESENTATION** - Awarded by the Scientific Committee

AWARDS FOR STUDENTS

- **FUTURE DOCTORS EDUCATING THE WORLD AWARD - BEST EDUCATIVE PROJECT** - Awarded by the Croatian Medical Chamber and Faculty of Medicine in Rijeka
- **BEST ORAL PRESENTATION / BEST POSTER PRESENTATION** - Awarded by the Scientific Committee
- **BEST MEDRI 2025 STUDENT PRESENTATION** - Awarded by the Student Section of Medicina Fluminensis

Application for an award

During the submission of their abstract(s), the submitting author will have the opportunity to select whether they would like to nominate their work for one of the Awards for Excellence in Medical Education using the on-line form for abstract submission. A single author may nominate multiple abstracts for the same or different awards. Members of respective award committees will be present during nominated presentations. Winners of each award will be announced during the Awards Ceremony at the closing of the Conference. The presenter must be present in-person at the Ceremony to receive the award.

Contents of awards

The Best Innovative Practice in Medical Education award, Best Pharmacy Education Award and Future Doctors Educating the World Award - best educative project include a financial (500 € for teacher awards and 250 € for student awards) and printed certificate of acknowledgment, whereas all other awards include a suitable present and printed certificate of acknowledgment. The financial acknowledgment and suitable presents are awarded to the presenting author only, whereas the printed certificate of acknowledgments will be attributed to the presenting author and institution/association where applicable.

CONFERENCE FEES

REGISTRATION FORM

On-line registration form

<https://www.vivid-original.com/dogadjaj/medri-2025/#registration>

After filling the form, the quote for payment of the registration fee will be issued by the professional conference organiser, Vivid Original.

REGISTRATION FEES

- Before 1 October 2025 (Early bird)..... **120 € in-person / 50 € on-line**
- From 1 October to 1 November 2025..... **150 € in-person / 70 € on-line**

In-person attendance may include active or passive participation, whereas on-line attendance includes exclusively passive participation.

Registration fee includes for in-person attendance includes: admission to all sessions on all three days, coffee breaks, lunch and conference materials (including conference bag with the final programme, digital book of abstracts and certificate of attendance).

Registration fee for on-line attendance includes: on-line admission to lectures and panel discussions and digital conference materials (including the final program, book of abstracts and certificate of attendance).

In case of cancellation, the paid registration fees are not refundable.

ACCOMMODATION IN HOTEL AMBASADOR

- Per night with breakfast and accommodation taxes..... **125 €**

CONFERENCE DINNER

- On 28 November 2025 **40 €**

**Second International
Student Symposium**
on Future Doctors
Educating the World

WELCOME NOTE

Dear Colleagues, Future Doctors,

It is our great pleasure to welcome you to the Second Student Symposium on **Future Doctors Educating the World**.

In an ever-changing global landscape, the role of medical professionals extends far beyond clinical practice. Today, more than ever, we are called not only to heal but to educate, advocate, and lead. This symposium brings together passionate students, aspiring healthcare professionals, and visionary educators united by a shared belief: that knowledge has the power to transform lives and communities.

Over the course of this event, you will engage with thought-provoking lectures, hands-on workshops, and vibrant discussions. Together, we will explore innovative approaches to medical education, share experiences from diverse healthcare systems, and examine the vital role young doctors play in shaping a healthier, more informed world.

We encourage you to be curious, ask questions, and connect with one another. Let this gathering inspire you to carry forward the mission of education, both within and beyond hospital walls.

Welcome to a space of learning, collaboration, and global vision.

Welcome to Future Doctors Educating the World.
